How to Order

In the comfort and privacy of your own home, you can look through this catalog and select Inter-State's Guaranteed Nursery Stock and Seeds.

- 1. Write your order for Nursery Stock and Bulbs on the order blank on the back of this page.
- 2. Write your order for Seeds on the order blank at the back of the catalog between pages 82 and 83.

If you run out of our order blanks you can use any sheet of paper, but be sure to put your orders for Seeds and orders for Nursery Stock on separate sheets of paper. You can mail both orders in the same envelope. This will help us both since our Seeds are handled in a separate department and are shipped at once while Nursery Stock is shipped at the proper planting time *in your locality*.

3. Write your full name and complete address on both orders.

In making out your orders please write or print very plainly, giving your full name and complete address, street or rural route. Also list your nearest express office if it is different from your post office as we sometimes ship by prepaid express instead of parcel post unless you object.

4. Order all items by catalog number.

City, Zone and State____

This helps us give you better service and helps avoid mistakes. List quantity, variety and size of items wanted.

5. Total amount on both orders and send us money order, draft or check.

If you send currency or cash, wrap it carefully and register your letter. A money order is a better way to send payment.

Sales Tax

Customers living in Iowa will add 2% to the amount of their order, which the Iowa Sales Tax Law requires us to collect.

Send living gifts that your friends will cherish for years—Send them

For Birthdays
For Anniversaries

For Mother's Day For Any Occasion

Each year more and more people wish to send their friends and loved ones Living Gifts. It is very easy to do. Just select from our catalog whatever you wish us to send and give us the complete address of those to whom you want it shipped.

We will send them a suitable Gift Certificate giving your name as the donor and listing the stock (without prices) they will get. At the proper time we will send the stock to them.

Year after year your gift will be a reminder of your thoughtfulness.

Mail Your Order Early

On page 3 is a list of premiums you get for ordering early. Be sure to list the premiums you wish on your order so all can be sent in one shipment.

When you are through with your Spring Catalog, perhaps your neighbor would like to see it. Thank you.

If you send us your order for Nursery Stock EARLY (seeds are not included), you may select Free Premiums as follows:

On Nursery orders of \$5.00 select one of these eight Premiums.

On Nursery orders of \$10.00 select TWO premiums.

On Nursery orders of \$15,00 select THREE premiums.

With each additional \$5.00 select one more premium.

No. 1—10 Streamliner Strawberries, worth \$1.25.

No. 2—2 Philippine Lilies, worth \$1.00.

No. 3—2 New Mums, our choice, worth \$1.00 or more.

No. 4—1 Canada Red Rhubarb, worth \$1.00.

No. 5—3 Phlox, our choice, worth \$1.00.

No. 6—12 Glad bulbs, our choice, worth \$1.00 or more.

No. 7—1 Peony, our choice, worth \$1.00.

No. 8—3 Fredonia Grapes, worth \$1.20.

The Premiums you select MUST BE WRITTEN ON THE ORDER, or none will be sent, even if you notify us later. However, if you send us another order, then you can include Premiums you overlooked on a previous order of the same season.

IMPORTANT—If we run short on some items, we reserve the privilege of changing premiums, sending you stock of equal or greater value.

Daisies, Shasta.

Inter-State's Guarantee

1. We guarantee our stock to be true to name. If it proves otherwise, we will replace free or refund the amount you paid us for it. 2. We guarantee our stock to be first quality and to reach you in good, live, growing condition. Examine it carefully upon arrival, and, if you are not entirely satisfied, return it at once and we will replace it free or refund 3. Our stock is carefully handled, and under ordinary conditions should grow for you.
But if it does not, owing to the weather and other conditions over which we have no control, we will replace at half price the following season, you to notify us not later than October 1st, 1947, accompanying your report with remittance of one-half original purabase price

We want you to be satisfied. If anything is wrong, we want you to write to us. your money. AND THE MEN BEHIND IT

The Inter-State Nurseries are owned and operated by three brothers, Carl O., Leslie R., and David L. O. Sjulin (this is a Swedish name and is pronounced "Shoe-lin") Practically born and raised in the nursery business, we have grown to be the Largest Direct-to-You Nurseries in America, with hundreds of thousands of customers. We have 1600 acres of the finest soil in the world, ideal for growing nursery stock,

HELPFUL PLANTING GUIDE

With every nursery stock order, we send Free a 24-Page Planting Guide. It tells in a clear, simple way how to plant

so that even if you have never done any planting, you can have success. It tells, also, how to prune, water, care for plants over winter, how far apart to plant, etc.

WE PAY POSTAGE

Please note that most items in this catalog are DE-LIVERED TO YOU, POSTPAID. Some Fruit and Shade Trees are too large to go by parcel post. They are shipped by express, you pay the express

In some orders, there are trees which must go by charges. express and also some stock which would go parcel post. In order to avoid making two separate shipments, we send the entire order by express. For this privilege, we include extra stock which has a greater value than the additional express charges amount to.

AMERICA'S LARGEST DIRECT-TO-YOU NURSERIES

Because we grow and sell direct-to-you more nursery stock than any other nursery, we can sell first quality stock at reasonable prices. Our soil is rated the finest in all America for growing nursery stock. It produces wonderful roots and fine tops. If you have never planted any of our seeds, order some this year. They are guaranteed to grow.

CENTRALLY LOCATED. We are located near the geographical center of the United States, with railroad facilities that enable us to ship promptly in all directions, North, South, East and West.

SALES TAX. The Iowa law requires us to collect a sales tax of 2% on all orders sent to us BY PEOPLE LIVING IN IOWA. Iowa customers will please add this amount to their orders. BUT PEOPLE NOT LIVING IN IOWA DO NOT SEND ANY SALES TAX.

IMPORTANT NOTICE

When ordering, please write down the Catalog Number shown by each variety and collection. If you order both Seeds and Nursery Stock, please be sure to PUT YOUR SEED ORDER ON A SEPARATE SHEET OF PAPER. Write your full name and address on both Seed and Nursery orders.

NURSERY STOCK IS SHIPPED AT PROPER PLANTING TIME

Nursery Stock and Seeds are not shipped together. Seeds are shipped at once. Nursery Stock is shipped at proper planting time. We are equipped so that we can start shipping to southern states early in the year. As the season advances, we keep shipping farther north until in May we are shipping to the most northern states.

When the long cold evenings of winter come, what a pleasure it is to crack some Black Walnuts to eat or for fudge, or for mother. She can use them in so many different ways and what a delicious flavor they add. Everybody likes Black Walnuts, but the common Black Walnut is small and it is hard to get out the meats.

Now you can have an improved grafted Black Walnut, which is giant size with kernels much larger, better flavor and much easier to get out. Thomas is fast growing and produces very large nuts. It is the greatest nut tree of the country. You should plant it because—

- 1. It bears very young, often second year after planting. A mature tree will produce 15 to 40 bushels of giant size nuts which sell for \$4.00 or more per bushel.
- **2.** The nuts are immense size as pictured above. They crack easily so the meats come out in halves and quarters. A bushel of nuts cracks out 10 to 12 pounds of meats.
- 3. The nuts are delicious flavor and because they are so large and plump and come out in halves and quarters they sell for 75c or more a pound.
- 4. It will grow in almost every state in America.

- **5.** Plant a tree or two for your own use. If you have room, plant more for profit. You can easily sell the big nuts at high prices. Plant 50 feet apart and 2 or 3 inches deeper than they stood in the nursery.
- **6.** In time the tree will grow large and walnut logs are becoming scarce. If you wished you could sell the trees for lumber at a good price. We doubt, though, if you would do this because the nut crop is so valuable. The demand for this great nut tree is so great that last spring we sold out. We suggest that you order early.

| | Each | 2 for | 6 for | 12 for |

| 18 to 24 inches, Postpaid | 2.50 | 4.75 | 13.00 | 23.00 |

N4 Thomas Walnut Seedlings—These are small trees grown from the nuts of the Thomas Black Walnut. They are not as good as the Thomas or Myers budded trees, but they are far better than the common Black Walnut, producing better and larger nuts and growing more rapidly. Plant a grove of them. You will get excellent nuts and the trees will grow into valuable trees for lumber.

| | o ioi | 12 for | 25 for |

| 12 to 18 inches, Postpaid | 2.00 | 3.50 | 6.00 |

MYERS BLACK WALNUT

N2 This new variety is very highly recommended. Mr. Hirschi who is a practical, experienced horticulturist and one of the best qualified nut experts in America, considers it the best he has ever fruited. It bears young. The nuts are not as large as Thomas but the shell is thinner so that a bushel of Myers cracks out as much and perhaps a little more than the Thomas. The quality is especially rich. We have a limited number of Myers trees so please order not more than 6 trees. We want as many as possible to try it.

RA-PID-GRO

The Guaranteed Liquid Plant Food

This is a highly concentrated Plant Food, very easy to use. Just mix with water, one pound to 22 gallons. Used when planting, it makes the stock start quicker and do better. Then use it every 2 or 3 weeks, especially early in the season. You will be greatly pleased at the results. Perennials, Roses, Shrubs, Trees, Berry Plants, etc., will do so much better. When fertilizing, take away some of the dirt from around the stock, making a hollow around it. Then the liquid can get down to the roots much better. After this liquid has soaked down, water thoroughly, then fill up the hollow with the dirt.

Our stock is grown in the richest soils in America. It is healthy and vigorous and will give you the best results if planted in proper soil. But unfortunately most soils are now deficient in some elements. Even a very minor element lacking, may make a big difference in growth. Ra-Pid-Gro contains all these elements. That is why we urge especially you who know your soil is not the best, to use it. We guarantee it to please you. See page 36 for more information about Ra-Pid-Gro.

FOR A TASTE RHUBARB FRESH FROM TREAT EAT RHUBARB YOUR OWN GARDEN

A16 Red MacDonald—The stalks are giant size, 2 or 3 times as large as common Rhubarb, tender and sweeter, requiring less sugar. Its bright red skin and white flesh makes the finest looking and best tasting rhubarb sauce and pies you ever ate. It stays tender far into the summer, so you can use it for months, early spring almost to fall. The stalks are 18 to 24 inches long, many half as thick as your wrist. The skin is so tender you do not peel it off, but cook it all. A tremendous producer, as fast as you pull up one stalk, another takes its place. It is practically seedless. A few plants will supply you with all you can use fresh and also plenty to can, cold pack or freeze for winter. We send you large, number one roots and if you plant real early you will get some Rhubarb this year. Postpaid.

6 for \$3.00, 3 for \$1.75, Each 65c

SPECIAL

2 Canada Red 1 MacDonald

All 3 for \$2.00 Postpaid

Rhubarb is the earliest spring vegetable. It should be in every garden. Grows in most any kind of soil. Lasts a lifetime with little care or attention. Plant 3 to 4 feet apart and cover the crown with 2 inches of soil. A little manure around them once in a while will mean more and larger stalks. Also break off all seed stalks as soon

SPECIAL

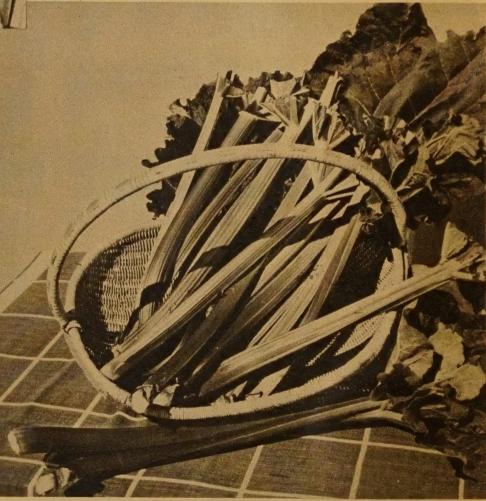

1 Chipman's Canada Red
1 Red MacDonald 1 Ruby 7A28 All 3 for \$1.75

CHIPMAN'S CANADA RED

A24 Chipman's Canada Red — A new rhubarb recently introduced from Canada that when once tried, is generally regarded as the best of all rhubarb. The stalks are large and completely red from bottom to top and even the flesh is red. In cooking, it does not lose this rich color. It certainly makes appetizing pies and sauce of matchless cherry-red color. It is the sweetest of all rhubarb so takes less sugar. For flavor it stands right at the top. The skin is so tender, you cook the entire stalk. It is extremely productive, you can pull the big stalks all spring and summer almost to fall. It is seedless. Plant early and you will get some rhubarb this year. Large number one roots. Postpaid.

Chipman's Canada Red Rhubarb costs more and after you have tried it, you will agree that it is well worth it. Just three plants are enough for an average family unless you want to can or freeze a lot for winter. It lasts a lifetime.

Each \$1.00, 3 for \$2.50, 6 for \$4.25, 12 for \$7.50

Al8 Skinner's—This variety does exceptionally well in Kansas and Oklahoma. We like it very much here at Hamburg. It is a tremendous grower and heavy producer of great big juicy stalks. If you have had trouble growing good Rhubarb, try this one. The skin is not as red as MacDonald, Ruby or Canada Red but the stalks are just as large or larger. Stays tender so you can use it for many weeks. Large Number One Roots. Postpaid.

3 for \$1.00, Each 40c

A17 Ruby Red—A new red rhubarb from Canada. The stalks are intensely red, even the flesh is red. Rhubarb sauce made from Ruby is as red as Strawberry sauce. Fine flavor. The skin is so tender it does not have to be peeled. Prolific yielder, can be used for months. The stalks are smaller than MacDonald or Canada Red, but there are more of them. Large Number One Roots. Postpaid.

3 for \$1.75, Each 65c

A19 Victoria—An old favorite for many years. Not as red, not as large, nor as productive as the others but it makes good sauce and pies. Grown from seed it can be sold cheaper as the others are grown from root divisions.

POSTPAID 3 For 6 For 12 For Large Roots..... 70c \$1.25 \$2.25 Medium Roots... 50c .85 1.50 Small Roots.... 30c .50 .90

Plant Inter-State strawberries this spring-

BLAKEMORE

25 for 65c 200 for \$3.00 50 for \$1.15 500 for 6.50 100 for \$2.00 1000 for \$11,50

A4 For preserving, canning and freezing, Blakemore is especially fine because it holds its red color and shape so well. For "company," you put Blakemore on the table. It ripens a few days before Senator Dunlap and is equally dependable, producing large crop every year. It stands up well during drought. The berries are large, firm, an attractive red and good quality. Self-pollenizing. POSTPAID.

SENATOR DUNLAP

25 for 65c 200 for \$3.00 50 for \$1.15 500 for 6.50

to produce a good crop. Self-pollenizing. POSTPAID.

100 for \$2.00 1000 for \$11.50

A3 We have sold countless millions of this grand strawberry. It is the most widely planted kind in the middle west. Hundreds of thousands, yes, millions of families, every summer, enjoy the fruit. It ripens in midseason and is simply delicious to eat, can, preserve and freeze. It is so dependable, seems like it never fails

7A10 DUNLAP SPECIAL * 50 Dunlap and 50 Blakemore * All for \$1.50 Postpaid

to eat fresh, can, preserve and for freezing

is sweeping the entire country. Strawberry growers write in saying it is not only the finest Everbearer but one of the greatest of all Strawberries. We are very proud that we helped to introduce it to countless thousands last year. We do not recall 100 for \$7.75 that ever has a strawberry made such a success in so short a time. The berries are very large, even larger than pictured. 50 for \$4.50 25 for \$2.50 10 for \$1.25 Rich red color and the most delicious flavor. Will bear This Year, starting 60 to 90 days after planting and produce right up to heavy frosts. Next year it will bear Spring, Summer and Fall. Streamliner has everything you could ask, fine flavor, larger size, good color, very productive and healthy. After each plant has made 8 to 12 new plants, pinch off the runners. When the plants are not too thick they produce many more and larger berries. Self-pollenizing. POSTPAID.

EVERMORE SPECIAL

Al Ambrosia is one of the finest Strawberries we have ever tasted. It has that delicious, sweet, real strawberry flavor. The sparkling bright red berries are very large and firm, fine for canning, preserves and freezing because they hold their shape. The fruit is easy to pick and clean because it comes on tall stems, strong enough to hold the fruit up off the ground. A strong vigorous plant that is extremely productive. Not an everbearer but ripens over a long period, commencing right after Dunlap. The early and the mid-season varieties are gone when Ambrosia starts ripening. My, how delicious are those sweet, great big, bright red berries. A big bowl full on the table will disappear in a hurry. When your neighbors taste and see them, they will want some too. We believe it is the best late strawberry we have ever seen. Self-pollenizing. POSTPAID.

Nothing is so delicious as Raspberries fresh from your own garden

Here are raspberries at their best

RED RASPBERRIES

There is a delightful flavor in Red Raspberries not found in any other fruit. If you have never grown them you have a treat coming. For pies, shortcakes, sauce, jam, freezing and fruit juice, they are delicious. You know how expensive and difficult it is to buy red raspberry fruit. Set out some plants this spring. Plant them 3 to 4 feet apart in the row and the rows 6 to 7 feet apart. They do well in any ordinary garden soil. Very hardy, they do best in the northern states. Generally not satisfactory in the south.

A45 Giant Latham-Very popular red raspberry. Fruit is large, bright red and delicious, eaten fresh, in sauce, jam, pies or shortcakes. Vigorous grower and bears heavy crops. We send you extra large, 2-year plants which will start bearing this summer. Postpaid.

Everybody likes home-grown Black Raspberries. They ripen between strawberries and blackberries, a little before red raspberries. Plant them 3 to 4 feet apart in the row; the rows 6 to 7 feet apart. We send you the best grade number one plants.

A53 Bristol—This new variety is rapidly gaining in popularity as the best mid-season blackcap, both for home and commercial planting. A vigorous grower that produces tremendous crops. The berries are large, jet black, firm, sweet, almost seedless and an unsurpassed flavor. A hardy, healthy grower, does well over a very wide territory, doing well even in sections of the south like Oklahoma.

THORNLESS BOYSENBERRY

IMMENSE SIZE · DELICIOUS FLAVOR HEAVY BEARER · HARDY

A30 Thornless Boysenberry—We have seen berries fully 2 inches long. The fruit ripens over a period of almost 2 months. Eat them fresh for weeks, use them for pies, sauce, preserves and fruit juice. Just like the original Boysenberry but absolutely Thornless. They are almost seedless and a very deep maroon, almost black color when ripe. Plant 8 to 10 feet apart each way. In cold sections it requires some winter protection. Postpaid.

BLACKBERRIES

When fully ripened on the bush, few berries are as sweet and delicious as Blackberries. Moreover, they grow most any place, even in very poor soil. Plant them in a corner of your yard and they will take care of themselves and bear every year. The fruit can be used in so many different ways—pies, sauce, cobblers, fruit juice. We send you best grade number one plants.

A37 Alfred—Ripens early but bears a long time. Produces an enormous crop of first-quality fruit. Berries are mammoth in size. Color is jet black; flavor sweet and delicious, nearly coreless and seedless. Very hardy. Heavy bearer.

A38 Eldorado—Late. Our most popular Blackberry. The sparkling jet-black berries are large, sweet, delicious and almost coreless. Ripens over a long period and is generally the last berry of the season. Hardy, vigorous and a heavy, regular bearer.

Berries that should be in every garden use them for jellies, jams, sauces and pies

Do you remember when you used to go to the berry patch with your mother or grandmother and help pick a few quarts of berries—first one kind, then another? And how good they tasted? And what wonderful fresh pies and sauce they would make? And the Jellies and Jams for hot breakfast biscuits? Fresh, canned or frozen berries of all kinds are becoming more scarce every year, and higher in price. You save when growing your own. On this and the following pages we list the best varieties for you to grow. A few dollars spent for plants this spring will return your money many fold in years to come.

On account of federal regulations we ship Currants and Gooseberries only to the following states—Arkansas, Illinois, Indiana, Iowa, Kansas, Kentucky, Missouri, Nebraska, North Dakota, Oklahoma and South Dakota. If you do not live in these States, please do not order Currants or Gooseberries.

All 26 Above Plants for \$3.75 Postpaid (Regular Price \$5.70)

We have made this low price so thousands can have and enjoy the fruit and vegetables from this fine special. These are our newest and best varieties. Plant early and you will get a taste of rhubarb and berries this season. Each year thereafter you will get more and more. You know how scarce and high raspberry fruit is, 30c to 50c for a small pint box. Not much room is needed to plant this Special.

JELLY SPECIAL
3 Red Lake Currants 3 Champion Gooseberries
7A63 All 6 for \$3.00 Postpaid

How often have you wished that you had some currants for making jelly? You know that they make the finest looking and best tasting jelly. Dietitians tell us that they are very healthful, tone up the system. Plant some this spring, enough for your own use and any surplus is easily sold at a good price. They are so easy to grow, thrive in ordinary garden soil and do not take much room. Plant them 3 to 4 feet apart. Our big 2-year number one plants will give you a few berries next year.

A60 New Red Lake—This new variety is rapidly replacing the older kinds. We think that it is the most productive and the sweetest, best quality of all currants. The berries are very large, they are pictured actual size. The clusters are long and filled out right to the end. The color is a bright glossy red and makes the most beautiful and finest flavored jelly. Even after fully ripe, they will hang to the bush and not drop off as others do. Please read notice above. Postpaid. 2-year No. 1 Plants,

DELICIOUS - EASY TO GROW - DO WELL PLANTED DELICIOUS — EASY TO GROW — DO WELL ! COTS IN SOD — RIGHT IN YOUR OWN YARD!

Pears grow in any ordinary soil, even in sod, right in your yard. Plant 20 feet apart. Two trees, alike or different varieties, planted near each other so they can cross-pollinize, will both produce more heavily than if planted alone. To tell when Pears are ready to pick, place the palm of your hand under a Pear, raise it gently and if the stem snaps off easily from the limb, they are ready to pick. Then put them in a cool, dark place to ripen and you will have Pears of the highest quality.

F90 Bartlett—Our most popular summer Pear. Fruit is large, yellow with blush, juicy, sweet, high quality.

F93 Bierschmidt—A new summer Pear ripening a few days after Bartlett. Originating in Northern Iowa, it is hardier than Bartlett. Good bearer. Highest quality. Blight resistant.

F92 Kieffer—The most widely planted winter Pear. A healthy, hardy and vigorous grower which bears young, heavily and regularly. The fruit is large and fills countless jars every season. Pick the fruit when it starts to color and let it ripen in a cool, dark place. Then it is delicious. Blight resistant.

F95 Patten-Originating in Iowa, this is a very hardy Pear which can be planted in cold sections like northern Iowa, Minnesota etc. Ripens in August. The fruit is large, yellow with blush, juicy, sweet, luscious flavor. Good bearer. Very blight resistant.

F91 Douglas—A fall Pear that originated in Kansas. Starts bearing very young and bears heavily every year, even when other Pears fail. Fruit is large, yellow with blush. Considered almost blight proof. Does especially well in Oklahoma.

F96 Seckel—Called the Sugar Pear because of its sweet, delicious flavor. Fruit is not large but the highest quality. Ripens in late summer. Bears young and heavily. Blight resistant.

F88 Cope's New Seedless Pear—A New Fruit Sensation. A Pear That Has No Seeds and No Core. In addition, it has everything else that you could ask for in a pear; great producer, excellent quality, size, beauty, vigor and hardiness. The fruit is large, a beautiful golden-yellow with a blush. The flesh is tender and sweet, juicy and delicious. Fine to eat fresh and ideal for canning as it has no seeds, no core.

The "Coreless" and "Seedless" features alone will appeal to those who eat them fresh or can them.

Bears Young, Does Not Blight

The original tree began bearing when 3 years old, and at 5 years of age it produced 3 bushels of perfect fruit. The trees in the nursery rows sometimes bear fruit. Other Pears right next to Cope's Seedless have blighted but it has never shown any signs of blight. Its early bearing qualities and resistance to blight place this variety among the leading Pears.

A Delicious Summer Pear

It ripens about 10 days after Bartlett and ripens evenly without any softening at the center. It is a self-pollenizer but will produce more fruit if two Cope's trees are planted near each other. If there are other varieties of Pears close, so they cross-pollenize, then Cope's may have a few small seeds.

PLUM VARIETIES!

BEAR YOUNG - BEAR HEAVILY - DELICIOUS

Scarcely any fruit has been improved as much in the past few years as has the plum. Bears younger and more heavily. The fruit is larger, with a wonderful flavor. We offer below the finest, outstanding varieties. Plant Plums 12 to 15 feet apart, in a group so they can cross-pollinize, thus greatly increasing the crop.

F102 New Damson-This is an improved strain over the ordinary Damson. The blue plums are medium size of finest quality. Free-stone. A heavy regular bearer. Ripens in September. Hardy to northern Iowa.

F103 Green Gage—The sweetest eating and canning plum, it is just full of sweet, sugary flavor. Large greenish-yellow fruit, freely produced. Free-stone. Ripens in September. It is not suited to extremely cold sections like northern Iowa. These trees do not grow as tall as other varieties.

F104 New Pipestone—A new Plum from Minnesota. The fruit is immense size, the largest plum we have ever grown. It has a very attractive color, red with a golden blush. The flesh is yellow, juicy and excellent quality. Fine for eating and cooking. Bears very young and heavily, ripening in August. Very hardy.

F105 New Red Coat-This also comes from Minnesota and is one of our best plums for canning. It is perfectly free-stone, the stone falling right out when you cut the fruit in half. The fruit is large, prune-shaped, a bright red color, good quality especially fine for canning. A healthy vigorous grower that bears young and every year. Ripens in August. Very hardy.

F106 New Stanley-A new prune-type plum from New York that is rapidly becoming the most popular of all plums. Large, dark blue, prune-shaped fruits. The yellow flesh is firm, sweet and delicious flavor. Exceptionally fine both for eating fresh and caning. A very heavy and regular bearer. Ripens in early September. Free-stone. It is hardy up to central Iowa. These trees will not be as tall as other varieties.

F107 Superior-This fine plum should be widely planted. The fruit is large, attractive red color and a rich sweet flavor. It bears very heavily, every year. Ripens in early August. Very hardy. Fine for eating and canning. A good pollinizer for other plums.

F108 Toka—Originated by Prof. N. E. Hansen, the famous plant genius from South Dakota, this is undoubtedly the richest flavored of all plums—a sweet, somewhat spicy and tangy flavor that is unequalled. The fruit is quite large, a beautiful apricot color with very firm, yellow flesh. Perfect free-stone. Fine for eating and canning. Ripens in August. Very hardy. It is also a good pollinizer for other plums.

F109 New Wisconsin No. 25—A new plum from Wisconsin. Extremely hardy and a good producer of good-sized red plums. It is especially valuable as a pollinizer for other plums. It makes them bear better.

The berries are large (much larger than pictured), an attractive red color, fine quality. Delicious eaten fresh. Good for sauce and makes the finest red raspberry jam and preserves you ever tasted. The plants are hardy and very productive. Easy to grow, require but little care. Red Raspberry fruit is expensive to buy. Grow some in your own garden. Ten plants will give you lots of berries and 25 will supply an average family for table use and canning. Plant 3 to 4 feet apart. We send you big plants which WILL BEAR THIS SEA-SON. Postpaid. 17

Apricots

ARE VERY DELICIOUS WHEN HOME-GROWN, TREE-RIPENED

Ripening right after the cherries and before the early peaches, Apricots are one of the most delicious fruits, especially when picked fully ripe from your own trees. They are easy to grow and also make a handsome shade tree for lawn planting. For wonderful sauce and preserves, few fruits equal Apricots. Plant 20 feet apart.

F23 Perfection—This great new Apricot is pictured to the right in natural color and actual size. The fruit is large, beautiful and delicious. It ripens evenly and is a good keeper. The flesh is firm so that even when picked tree-ripe it can be shipped. Hardy, vigorous grower and heavy bearer.

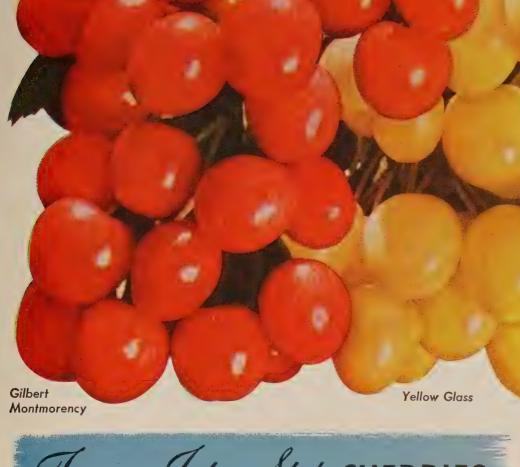

4 to 5 feet, Not Postpaid...... Each \$2.25 3 to 4 feet, Postpaid..... Each 2.00

F24 Sansin—Introduced by Prof. N. E. Hansen of the South Dakota Experimental Station. Very hardy and drought resistant. It is adapted for the cold sections like northern Iowa, Minnesota and the Dakotas. Medium size golden-orange fruit.

4 to 5 feet, Not Postpaid..... Each \$2.00 3 to 4 feet, Postpaid..... Each 1.60

F26 Superb—This fine Apricot originated in Kansas and has been largely planted throughout the Middle West. The tree is hardy and very productive. Fruit is medium large, orange-yellow, flesh firm, high quality. Excellent for eating, cooking, canning, pies.

Famous Inter-State CHERRIES BEAR YOUNG AND BEAR EVERY YEAR

You can plant Cherries right in your lawn. The flowers are lovely in the spring, the foliage and tree itself are attractive and then in the early summer you have the healthful, delicious fruit. Cherries are our surest-to-bear tree fruit and they commence bearing very young. Plant them 15 to 20 feet apart. OUR LARGEST SIZE TREES ARE EXCEPTIONALLY FINE SELECTED SPECIMENS, THE FINEST TREES GROWN.

F79 Early Richmond '(May Cherry)— This is the popular early pie cherry of the nation. The fruit is bright red, juicy and delicious. Tree is a strong grower, bears heavily every year and starts bearing young.

Plant Summer, Fall and Winter Apples THEN YOU CAN HAVE FRESH APPLES, ALMOST THE YEAR 'ROUND

PRICES ON APPLE TREES

Your Choice of Varieties, Alike or Assorted 6 For 12 For Each 3 For \$6.50 \$11.75 5 to 7 feet, Not Postpaid. . .\$1.25 \$3,50 8.50 4.95 2.75 4 to 6 feet, Not Postpaid ... 1.00 6.50

Why not plant an apple tree in your lawn? It will give you shade, flowers and fruit. We have a very fine lot of Apple Trees this season. The 5 to 7 foot trees are exceptionally choice. The other sizes will also please you. All are 2-year branched, well-rooted trees which will soon start bearing. Orchardists who want larger quantities of trees should write us for special prices.

SUMMER

F31 Anoka—Originated by Prof. N. E. Hansen of the South Dakota Experiment Station. Generally bears next year after planting. Fruit is yellow streaked red. Ripens in August but can be used a month earlier.

F32 Beacon—This new apple originated at the Minnesota Fruit Experiment Station and is much better than Duchess. The fruit is large, a solid bright red of very fine quality. It ripens in August but can be used weeks before. It is very hardy and extremely productive. Fine for eating, pies, sauce, etc. Bears very young.

F35 Early Red Bird—This fine apple ripens a week before Yellow Transparent. It is the best real early red apple we know. The fruit is large, bright red, good quality for both eating and cooking. Hardy and a heavy bearer.

F33 Red June—Everybody likes this early red apple.

F37 Yellow Transparent—The favorite early yellow apple. Ripens in July. Bears young, heavily and every year. Fruit is medium size, tender, juicy. Fine flavor for eating and cooking.

FALL APPLES

F34 Maiden Blush—An old favorite. Yellow with blush, mild flavor, large size. Ripens just before Wealthy.

F42 Wealthy—By far the most popular fall apple. It ripens in September but can be used weeks earlier. Fruit is large, red striped, with tender, juicy flesh of fine quality. Very hardy. Bears young and heavily.

CRAB APPLES

F70 Dolgo—Every year just full of bright red fruit which makes the finest tasting and best looking jelly. Tree itself does not grow too large and is attractive enough to plant in your lawn as a flowering crab. Very fine.

F71 Whitney-You can eat it fresh just like an apple. It is not tart. The fruit is medium size, red striped, fine quality. Makes wonderful apple butter and jelly. Bears young and heavily.

WINTERAPPLES

F48 Grimes Golden—For many, many years this has been a very popular yellow apple. The fruit is large and highest quality.

F47 Haralson—Large good red apple that keeps all winter. Heavy bearer, very hardy.

F51 Jonathan—Almost everybody knows it and likes it. A fine bright red apple of highest quality with crisp, yet tender flesh. Juicy and full of snap.

F52 Jonathan, New Bright Red—This is like the apple above but it colors a couple of weeks or so earlier and has a richer color. One of America's greatest apples.

F53 McIntosh, Solid Red—This large red apple is especially popular in the east, and also in sections of other states. Flesh Snow-white of very high quality.

F56 Red Delicious—This is the original Delicious which originated in Iowa and has been planted from coast to coast for its superb quality and mild juicy flavor.

F60 Solid Red Delicious—Considered by many to be the finest of all red apples. It bears younger, keeps longer and the fruit colors up several weeks earlier than the common Red Delicious. The fruit is large, solid red and has a delicious flavor, unequalled by any other apple.

F58 Secor—Originated at the Iowa Experiment Station. Large red apple of very highest quality. Productive. Many like it better than Jonathan.

F61 Stayman Red—For January-February no apple is better. Fruit is very large, a fine red color, good for eating and cooking. Heavy bearer.

F36 Sweet Delicious—Nearly everybody likes a sweet apple but they are hard to get as so very few people grow them. This is a good one. Large, attractive, red fruit with a true sweet aromatic flavor. Good for eating, baking and making sweet pickles.

F64 Winesap—The most popular long keeping winter apple. This is an improved strain. It has better color, larger size and will keep right through winter into spring. Good to eat and for cooking.

SOLID RED DELICIOUS, America's Favorite

F66 Yellow Delicious—This is now the most popular yellow apple in all America. It bears young and heavily, the fruit is large, juicy and no apple has a finer flavor. Some people who cannot digest other apples, eat this without any trouble. It is ready for eating in late fall.

F67 York Imperial—A large red apple, a little lop-sided but

- 1 Wealthy, fall.
 1 Yellow Delicious, late fall.

INTER-STATE Peaches BEAR YOUNG AND HEAVILY -

The peaches are listed in their order of ripening. Mayflower ripens here in early July—Elberta the last of August. Peaches need but little room, easy to grow. Our Iowa-grown, budded trees are hardy and bear young. Plant them 15 to 20 feet apart.

F12 Mayflower—First to ripen yet almost frost-proof as it blossoms so late. Red all over, good quality, good size. Semi-cling. F14 Red Haven—This new variety is rapidly becoming the leading real early yellow peach. The fruit is large, almost a solid red like a Jonathan apple. The yellow flesh is firm, sweetly delicious, high quality. Free-stone. A hardy, vigorous grower and very

productive.

F5 Champion — Free-stone. Large creamy-white with red cheek. Flesh is white, juicy, sweet and highest quality. A heavy, regular bearer. Very hardy. Excepting Sungold and Polly, this is probably the hardiest peach we grow.

F9 Hale Haven-Free-stone. This fine new peach is rapidly overtaking Elberta. A heavy producer of large, yellow peaches of high quality. Hardy.

F6 Early Elberta—Free-stone. Yellow with blush. Fruit is large, yellow flesh, firm, juicy, delicious. Hardy.
F10 J. H. Hale—Free-stone. Very large, golden yellow, flushed red with fuzzless skin. Flesh is yellow, solid, tender, very high quality. On the market it always brings a higher price. Plant with other varieties for pollinization to increase yield.

77 Elberta—This grand peach fills millions of fruit jars every

F13 Elberta Cling—Ripens about one week after Elberta. This is a fine, delicious, high quality, yellow, firm, clingstone peach.

HARDY YELLOW PEACH

Sold Only by Inter-State Nurseries

Very Large, Free-Stone, High Quality, Attractive

F1 The fruit of Sungold is very large, perfect free-stone, beautifully blushed. The flesh is firm, golden yellow, full of juice and the richest, sweetest flavor. Exceptionally fine quality. fine for canning. A commercial peach because it colors early and is a fine shipper. Ripens several days before Elberta. A heavy, regular bearer. The tree is well-branched, stocky and short, making it easy to pick the fruit. We could fill many pages with letters of praise about Sungold. Many of them show that it is definitely a hardier Peach. Tests at the Love Experimental Sta definitely a hardier Peach. Tests at the Iowa Experimental Station also prove this. Sungold is a superior peach because of its Size, Beautiful Color, High Quality, Big Production and Hardiness. Self-pollinating, it produces more fruit. It lives and bears where Elberta dies and is far hardier than J. H. Hale.

FINEST WHITE PEACH

INTER-STATE'S ORIGINAL STRAIN

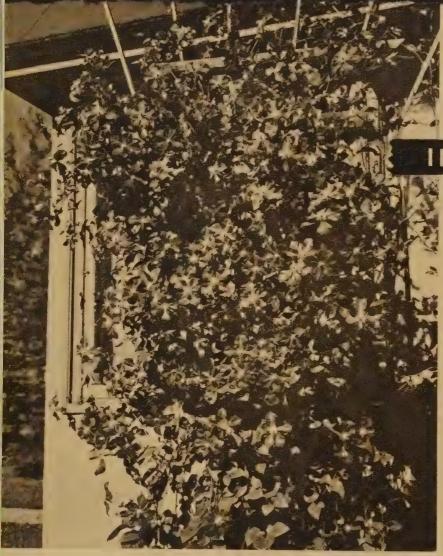

Hardy, Delicious, Free-Stone, Heavy Bearer

F2 The fruit is large, blushed, free-stone, ripens just before Elberta. The flesh is white, juicy but firm, the richest, most delicious flavor. All who have tasted it agree that POLLY IS THE FINEST FLAVORED PEACH THEY EVER ATE. When canned it stays firm and makes the most luscious peach sauce and preserves. Polly is not a good shipper but is best for home use and local markets. It bears young and is a heavy, regular bearer. Polly was introduced by us in the spring of 1934. It was originated by the Iowa Experiment Station. Thoroughly tested for many years, standing cold of 15 to 20 below zero. Polly is not a peach just for the North. It is a great peach for other sections as well. The fruit has such a wonderful flavor and is produced abundantly.

Use Inter-State Vines to soften harsh lines

Clematis Jackmani

V11 Lonicera, Japonica Purpurea—This is a rather rare Honeysuckle. Produces pink and yellow fragrant flowers all summer. The foliage is a rich green turning purple in the fall. In southern states the foliage stays on all winter and in the north it stays on almost all winter. It is fine on a trellis. But this plant can also be used as a shrub. Without any pruning the plant will develop into a very attractive shrub. The center branches grow up and then gracefully droop. It will make a plant 3 feet tall and 4 feet wide. You can well imagine how lovely it is. We have only 2,000 plants. Postpaid.

Each 75c, 2 for \$1.25

V9 Summer King Honeysuckle (Heckrotti)—From June until freezing, this magnificent plant is covered with showy clusters of large, fragrant flowers, rose-flame outside and gold inside. The attractive foliage, a rich blue-green, makes a perfect background for the brilliant flowers. Hardy, healthy, easy-to-grow, it thrives North, South, East and West, in full sun or partial shade. It can be used in so many places—porch, pergola, fence, fine for covering bank or cave, and especially beautiful for a trellis. OUR PLANTS WILL BLOOM THIS SUMMER. Postpaid.

Each 60c 2 for \$1.00

V18

Bosten Ivy—The vine of romance—that adds its distinctive beauty to both the simple clap-board cottage and the stone mansion. It clings so closely to the walls, they seem to be shingled with leaves. The foliage colors a charming maroon in the fall. Clings without support to even the smoothest surface. Prefers a north or east side. This is a vine generally seen clinging to buildings. Our 2-year No. 1 vines are far superior to smaller plants. Postpaid.

Each 60c, 2 for \$1.00.

Vines create beauty, softening harsh, barren lines. The expense is small and they last a lifetime. Take a good look around your place and see what vines you need. For walls, porch, pergola, trellis, to cover banks or cave, to screen unattractive views, to trail over a fence. Vines often provide just the finishing touch you need.

INTER-STATE'S CLEMATIS

Clematis are the most colorful and many people think them the most beautiful of all flowering vines. On a porch, pergola, trellis or fence, they are truly a gorgeous sight, so many lovely flowers of purple, white and red, all summer. A location shaded from the hot afternoon sun is ideal. Our plants will bloom this summer. POSTPAID.

V2 Henryi—A chastely pure white flower of unrivaled charm. Immense size, often 7 inches across, and produced all summer.

Each 75c.

V3 Jackmani—When you see this plant, covered with hundreds of purple blooms, you will know why it is called the Queen of all Vines. The flowers are large, 4 to 6 inches across and produced freely all summer. The most colorful and attractive of all.

Each 75c.

V4 Mme. Ed. Andre — Its striking, velvety red flowers are produced profusely. Each 75c.

V19 The ordinary Bittersweet often fails to fruit. Here is one that always fruits. Even one vine planted alone will bear fruit but if you plant 2 or 3 close together so they can crosspollenize, then they will all bear a great deal more. Grows rapidly in any kind of soil, in sun or partial shade. Blooms in June followed by the clusters of attractive orange-red berries. Makes fine late fall and winter bouquets.

2 for \$1.25, Each 75c. Postpaid.

- add charm and beauty to your home!

Do you have an unsightly garage, a barren wall or fence? These Vines can turn them into spots of charm and beauty.

Silver Lace

V17 The Fastest Growing Hardy Vine. The picture shows how lovely they are. A hot, sunny pergola or porch can be made cool and inviting. Often grows 10 to 12 feet the very first season. From mid-summer to late fall it is completely covered with thousands of small white flowers. The foliage is glossy green. Easy to grow, it is ideal for porch, pergola, trailing over a fence, stumps and banks. Our heavy field-grown number one plants will give you shade and flowers this summer.

Each 70c, 2 for \$1.25. Postpaid

PINK WISTERIA

V14 A new and still rare Wisteria with lovely pink flowers, becoming more beautiful each year. Our grafted plants generally bloom second year after planting. Perfectly hardy, easy to grow, blooms in late spring. For a charming color effect, plant both the Pink and Purple Wisterias. Two year old plants. Postpaid. 2 for \$1.75, Each \$1.00. Extra Large 3-Year Plants Each \$1.25

Wisteria

PURPLE WISTERIA

V15 A magnificent vine, lasting for generations. Our plants are grafted which induces early blooming. Sometimes they even bloom the same year planted and almost always the next year. Large clusters of fragrant flowers in May-June. The color is lilac-purple, far superior to the lavender color of the common Wisteria. Two year old plants. Postpaid.

2 for \$1.25, Each 75c. Extra Large 3-Year Plants Each \$1.00

7V16 1 Pink and 1 Purple Wisteria for \$1.50. Postpaid.

Inter-States Flowering Shrubs

MAKE YOUR HOUSE A HOME, HAVE BLOOMS, SPRING TO FROST

When your yard is nicely planted, how proud you are of it. Also it creates a good impression on all who pass by. Once planted, shrubs require very little care and bloom year after year. A few dollars spent this spring will bring pleasure, pride and beauty to your home

GOLDEN BELL, Forsythia

S44 Golden Bell (Forsythia Spectabilis)—This is the best Golden Bell. The first shrub to bloom in the spring, its bright yellow flowers light up the entire yard. Grows 5 to 6 feet tall and succeeds everywhere, in sun or light shade. The foliage remains a beautiful green all summer. Attractive green bark in winter. Postpaid.

BEAUTIFUL STAR MOCK ORANGE

S86 Beautiful Star Mock Orange (Belle Etoile)—This is a new, very fine and rare shrub. It is probably the most fragrant of all Mock Oranges. The two-inch flowers are starlike, perfectly snow-white except when they first open there is a light purple color deep down in the throat. It makes a neat bush about 5 feet tall and 4 feet wide, blooming in late spring and early summer. Unquestionably it is one of our best shrubs. Grows in sun or light shade. Postpaid.

Weigela Vaniceki

Weigela we have found entirely hardy, withstanding 20 degrees below zero without the slightest injury. We consider it the finest new hardy shrub we have ever tested. It makes an attractive, shapely, rounded bush 5 to 6 feet tall and almost as wide with excellent foliage right to the ground line. In May-June it is completely covered with the beautiful rosy-red flowers. After this big display, the plant makes new growth and in a few weeks commences to bloom again and produces some blooms right up to frost. Tested side by side with other Weigelas it has proven to be much hardier, blooming far more freely. Planted this spring, Vaniceki will bloom for you this summer and fall. We consider it an amazing new shrub and believe that it will do well in ordinary soil, East, West, North and South. It is very easy to grow and has never been bothered by any insects or diseases. We have only a limited supply for this spring. Postpaid.

BLUE HYDRANGEA

\$55 This variety is the hardiest we know. It blooms from new wood as well as old. The flower heads are large and last for weeks. In acid soil, the blooms are blue as pictured at the left. In ordinary soil, the flowers are pink. If you want blue flowers then you can make your soil acid by mixing quite a little Peat with it. See page 36 for Peat. In northern states give it some winter protection just like roses. The plant grows 2 to 3 feet tall and just as wide. It prefers partial shade and will grow in full shade. Whether blue or pink the flowers are wonderful.

Each \$1.50, Postpaid

Azalea Mollis

53 This is a selected strain with larger flowers of brilliant colors, vivid orange, flame, salmon and gold that completely cover the bush in May and June. Grows 3 to 4 feet tall and just as wide. Thrives in sun or partial shade and will stand 10 below zero without injury. A mulch of Peat Moss or leaves is beneficial. In shrub borders, in foundation plantings, it adds a touch of color no other shrub can give.

Hardy Pink

Crape Myrtle

BLOOMS MIDSUMMER TO FROST

Crape Myrtle, the south's most beautiful shrub, can now be grown much farther north. We have secured a strain which is hardier. In northern states, grow it just like Everblooming Roses, giving winter protection by mounding up dirt before cold weather comes. It blooms on new growth so it does not matter if the old top is entirely killed. The flowers have such lovely, clear colors with a soft crepe-like texture. We have priced them reasonably so all can enjoy this wonderful shrub. THEY WILL BLOOM THIS SUMMER.

MAGNOLIA SPECIAL **1 Magnolia,** 2 to 3 feet

1 Viburnum Carlesi, 18 to 24 inches

T18 Magnolia, Soulangeana—This is the most popular hardy Magnolia. One of the first trees to bloom, the delightfully fragrant flowers appear before the leaves. They are pink in the bud and white when fully open. The blossoms are large, often 8 inches across. The foliage itself is attractive, a rich, waxy green. The tree seldom grows more than 10 feet tall and starts blooming before it is 3 feet tall. In fact, most of the young trees we send out have bloom buds on them. It is a strikingly beautiful, low-growing, flowering tree for the lawn.

18 to 24 inches, Postpaid...... **Each 3.25**

F70 Dolgo Flowering Crab Tree—Plant this for beauty, for fruit. In the spring it is hidden by masses of beautiful flowers, white tinged blush. Then it bears a heavy crop regularly of the brightest red Crab Apples, which make the finest jelly you ever tasted. The tree itself is perfect in shape, pyramidal in growth, forming branches that turn upward like candles, giving the tree a candlelabra effect. Grows 15 to 20 feet tall, hardy, healthy, succeeds everywhere that apple trees grow.

Fragrant, Colorful French Lilacs

PLANT EARLY THIS SPRING-WILL BLOOM NEXT SPRING

\$64 Bleautre—Large symmetrical panicles of deep blue.

S61 Charles X—blooms profusely every year, wine-red.

S67 Ludwig Spaeth—Most popular of all named Lilacs, a rich purple.

S68 M. C. Perier—Free-blooming, rich creamy white.

\$69 Michel Buchner—Lovely, dark lilac-colored flowers. Profuse bloomer.

S74 Victor Lemoine—An outstanding variety with immense tresses of orchid-pink.

Until you have them blooming in your own yard you cannot realize the beauty of French Lilacs. They bloom very young, generally the next year after planting. Each passing year adds to their beauty and they last for generations. Many people think that these Lilacs are the finest of all shrubs. They do not grow very tall, 6 to 8 feet. Their fragrance fills the air. Plant Lilacs as early as you possibly can. All Lilacs POST-PAID.

PLANT INTER-STATE Hardy Hedges.

· ADD BEAUTY · PRIVACY AND PROTECTION TO YOUR HOME ·

H2 Hardy Russian Privet (Amoor River North)-If you do not know what hedge to plant, we recommend this very highly. It is by far the most popular. hardy trimmed hedge in the northern states. It makes a permanent hedge, lasting for generations. Not only adds beauty, it also protects your yard especially if you have a corner lot. It is fine for a division line between yards. Can be trimmed to any desired height, making a thick, dense hedge, without thorns, right down to the ground. Requires trimming only twice during the summer. But if you will trim it 3 or 4 times, it will become even more dense and bushy. The leaves are a rich, dark green and hang on until very late in the fall. This is the hardiest Privet, standing 15 below zero without injury. Plant 1 foot apart.

| Postpaid | 12 for | 25 for | 50 for | 100 for | 200 for |

DWARF BLUEHEDGE

(SALIX PURPUREA NANA)

H10 This is a photograph of Dwarf Bluehedge growing in our nursery. You can see how nice and bushy it is. The leaves are narrow, an attractive silvery blue-green. If not trimmed, it makes a dense, bushy hedge 2 to 2½ feet tall and 2 to 3 feet wide. It can be very easily trimmed to a lower height and width. It originated in the far north so is perfectly hardy. Grows in dry soil or wet, in sun or part shade. Because this is a rather new plant, you may hesitate to plant some, so we guarantee that after you have had it for two years and do not like it, you can select from our catalog, without cost, any other hedge to the same amount you paid for Bluehedge. Plant 9 to 12 inches apart.

| Postpaid | 12 for | 25 for | 50 for | 100 for |

H3 Bridal Wreath (Spirea Van Houtte)—This photograph shows the beauty of Bridal Wreath, America's most popular and widely planted untrimmed flowering hedge. Millions of small white blooms cover the gracefully arching branches, every spring, without fail. Requires no special care and lasts a lifetime. Perfectly hardy, grows everywhere, in full sun or partial shade. You see it all over America and everywhere it is attractive and thriving. Makes a marvelous natural hedge or screen 5 to 6 feet tall. Plant 2 to 3 feet apart.

GREEN LEAF BARBERRY

H4 Green Leaf Barberry—Makes an excellent compact, rounded, low-growing hedge, 2 to 3 feet tall and just as wide, that never has to be trimmed. If desired, it can easily be trimmed to a lower height and width. The foliage turns orange-scarlet in the fall and red berries hang on all winter. Grows in sun or partial shade. Has small thorns. Rust-proof. Succeeds everywhere except the gulf states. Plant 1 foot apart.

CHINESE ELM

H1 This is America's fastest growing hedge, making a good showing in just a few months. It is the first to leaf out in the spring and one of the last to shed in late fall. You can trim to any desired height from 3 to 10 feet, as a hedge or tall screen. The more you trim it the more dense and compact it becomes. We recommend that after planting, you cut off nearly all the top, leaving only 3 to 4 inches above ground. Plant 8 inches apart.

FRIENDS OF THE GARDENER

FORCE'S MOLE KILLER

You simply put the pellets in the runways. The moles like them and eat them and die. That is all there is to it. Keep a supply on hand to use when the mole's runways appear. Guaranteed to work or your money back. Postpaid.

K4 75 Pellets for 50c.
K5 185 Pellets for \$1.00.

PEAT MOSS

K7 Large Bag, 50 to 60 Pounds, Each \$1.75

You pay the express or freight charges. Order early so it can be shipped by freight as freight is cheaper, but takes longer. We have 2 kinds of Peat Moss. One is Acid for using with Azaleas, Blueberries, Blue Hydrangea and other acid-loving plants. The other type is Neutral. This is used with Roses, Shrubs, Perennials, Lawns and general use. Peat Moss is a very fine soil conditioner. It mellows heavy soils and helps bind sandy soils. It is a pure source of humus, needed by most soils. It is weed-free and odorless and helps the soil to hold moisture and retain plant food. Use ½ Peat Moss mixed with the soil when planting and you will get better results.

GENUINE HASTINGS SOIL-SOAKER

An ideal way to water because the water seeps through the entire length of the porous canvas and wets the ground thoroughly without waste and without wetting the flowers or foliage. Is flexible so you can place it right where you want it. You simply put it on the end of your garden hose. We have tried many sprinklers and this is the best we have ever seen or tried.

RA-PID-GRO

For Better Flowers, Better Lawns, Better Shrubs and Trees, Better Gardens

Here is a product that we would like to have everybody use. When planting, you simply put 4 level teaspoonfuls of RA-PID-GRO in 1 gallon of water (8 level teaspoonfuls in 2 gallons water, etc.). Soak the roots of Roses for 3 minutes. They will start much more quickly and bloom much sooner. Soak roots of shrubs for 3 minutes; roots of trees for 4 minutes; just dip Perennial roots for a second or two. Strawberry plant roots are dipped for just a second or two. Raspberry, Blackberry, Boysenberry, Healthberry roots, Grapes, Gooseberries, Currants and Blueberries are dipped for one minute. After dipping, plant right away, keeping all roots protected from sun and wind. When through planting, pour the solution around the newly planted stock. Then every 2 to 3 weeks, use RA-PID-GRO and you will get the very best results. I pound makes 22 gallons of quick-acting fertilizer.

It is marvelous for invigorating lawns. For using on the lawn and large areas, we have a special nozzle. It costs \$1.50 Postpaid. It automatically measures out the right amount of RA-PID-GRO. However, you do not need this nozzle for ordinary garden use. You simply put RA-PID-GRO in water in a pail or sprinkling can, then pour it around the stock you wish to fertilize. We realize the soil in most yards is not as fertile as it should be. RA-PID-GRO will overcome this and you will be greatly pleased at the increased growth you get. Try it at our risk. If you are not entirely pleased, your money will be refunded. Instructions on every package.

CHINESE ELM America's Most Popular Shade Tree

720 Because of its extremely rapid growth, the Chinese Elm has become popular. Under ordinary conditions, it grows 5 feet a year. In just a few years, it makes excellent shade. It is very valuable for those sections of America where most other trees will not live or thrive, where it is hot and dry, even in alkali. It seems to thrive even in the poorest soil. But in those sections where Maples, Oaks and American Elm are grown, we advise planting the Chinese Elm only as a temporary tree for quick shade. There are hundreds of thousands of such homes, which would be more attractive and more comfortable if some of these quick-growing Chinese Elms were planted.

A 5 to 6 ft. Tree, 7 Years after Planting

JUST 5 YEARS WINDBREAK

A windbreak around your home and farm buildings makes living more comfortable both summer and winter. It breaks up the dust storms and blistering hot winds and the biting cold winds and drifting snows. It will take less fuel to heat your home. Your livestock and poultry will show greater production and profit. Chinese Elm is the fastest growing, drought resistant, economical tree you can plant for a windbreak. In three years you will see a big growth, in 5 years you would not sell it back for hundreds of dollars. These young Chinese Elm Seedlings, are especially fine for windbreak planting. Plant them 3 to 4 feet apart. Two rows in zig-zag fashion help a lot, but three or four rows are better.

Fine 18 inch plants, Postpaid

For windbreaks, the Chinese Elm is certainly a great blessing. Plant this spring and in a few years you wouldn't part with them for many times what you paid for them. Every day, summer and winter, they add to your comfort and make you money by their protection. For best results, plant 3 or 4 rows.

12 to 18-inch Chinese Elm 5 Years after Planting

FOR QUICKER EFFECT - Plant these Root-Pruned-2 Yr. Seedlings

We have a fine field of 2-Year Chinese Elm Seedlings. These have been grown in wide rows and root-pruned which means a better root system. If you want to plant quite a lot of Chinese Elm Trees and hesitate about paying the higher price for the transplanted shade trees above, then these will do very well for you. The price is so low you can afford to make liberal plantings around your home and buildings, giving shade in summer and protection from the hot winds of summer and cold blasts of winter. A planting of Chinese Elm is a blessing on any farm and especially so in those parts of Texas, Oklahoma, Kansas, Nebraska, Colorado, Wyoming and the Dakotas, where so few other trees thrive. These 2-Year Chinese Elm will grow rapidly and are a great value at these prices. They will be shipped at planting time by express.

The Sugar Maple (also called Hard Maple) is native to almost every state east of the Rockies excepting the gulf states. It is a permanent tree that lasts for generations. There are many homes in America which are identified by the magnificent Sugar Maples planted fifty to a hundred or more years ago. It thrives in almost any kind of soil. There are two strains, a northern and a southern. Our trees are the northern strain, Iowa-grown. This strain colors more attractively in the fall when its luxuriant foliage is marvelous with tints of orange, gold and scarlet. It makes a large, spreading, perfectly formed tree, of which you will always be proud.

5 to 6 feet, Not Postpaid, Each \$2.50, 2 for \$4.50 6 to 8 feet, Not Postpaid, Each 3.00, 2 for 5.50

This beautiful tree is also called the Cut Leaf Weeping Birch. Its bark is gleaming white, both summer and winter. Its leaves are delicately cut. A single specimen or a group adds distinction to a lawn. The grass will grow right up to the trunk. The white bark comes a year or two after planting. Does best in the north and east.

PINOAK

the most majestic of shade trees

111 Everybody thinks the Oak is a grand tree and always admires it. But few have planted them for two main reasons. In the first place they have sold at high prices. In the second place many people think they grow so slowly. Now we are offering the Pin Oak, the finest of all Oaks, at the price of just ordinary trees. Careful records have shown that the Pin Oak, the fastest growing of all the Oaks, actually grows almost as fast as the American Elm. It is one of the most enduring of all trees. A tree planted now will be a great pleasure to you and for generations to come. For street and lawn planting it has no equal.

It grows in symmetrical, pyramidal form and at maturity towers 60 to 80 feet high. The rich green foliage is deeply cut and colors to a glorious coppery-red in the fall. A sturdy, rugged grower, it adapts itself to all locations and is not bothered by insects or diseases. Plant Pin Oak and every year hereafter you will be thankful.

Beauty for all the Seasons

PURPLE MAPLE (Schwedier's)

15 This is one of America's finest shade and ornamental trees. Beautiful in spring, summer and fall. In the spring, the foliage is a rich reddishpurple. In the summer, it is a bronzy-green. In the fall, it is attractive golden-yellow. It is not a fast grower but the growth is so symmetrical and perfect that even a young tree has a commanding appearance. It is especially suitable as a specimen in the lawn and also makes a good tree for the parking. A permanent tree that lasts for many generations.

5 to 6 feet, Not Postpaid, Each \$2.50 4 to 5 feet, Not Postpaid, Each 2.00

SCARLET MAPLE (Rubrum)

T10 In the fall, this is the most gorgeously colored tree in all America. The leaves are a brilliant rosy-scarlet (like fall sumac leaves), much brighter than pictured here. Those who have seen hillsides ablaze with them never forget the scene. In the spring, the tree is full of scarlet flowers followed by bright red seed. The spring and summer foliage is attractive, deep green above and blue-green below. Makes a large, shapely, longlived tree that is not so dense but grass grows underneath. Very valuable for lawn and parking. Grows from the gulf to Minnesota.

6 to 8 feet, Not Postpaid, Each \$3.00 5 to 6 feet, Not Postpaid, Each 2.50 4 to 5 feet, Not Postpaid, Each 2.00

T8 White Birch in a new rare form, grown as a clump with three or more distinct trunks. It is the same as 3 trees with one root. It gives a naturalistic effect that is peculiarly attractive in the White Birch. After the tree has been planted for a year or two, the bark turns white and stays that way, summer and winter. It grows 25 to 30 feet tall. The green foliage colors an attractive yellow in the fall. You can easily imagine how beautiful it will look in your yard.

4 to 5 feet, Not Postpaid. Each 2.75 3 to 4 feet, Not Postpaid. Each 2.00

7T25 LAWN BEAUTY SPECIAL

1 Scarlet Maple, 5 to 6 ft. Both for \$4.00 1 White Birch, 3 to 4 ft. **Not Postpaid**

El Blue Juniper (Patent No. 422)—A new evergreen that we consider the most outstanding variety introduced in the last 25 years. It is low growing like the Pfitzer's but the foliage has a beautiful silvery blue color that is impossible to reproduce on paper. color is the brightest on the new growth and darkens somewhat on the inside. It is one of the few evergreens which will thrive over the entire United States, in the south as well as the north, east and west. Ideal for corners, for foundations, beside the walk, near the porch, any place you want a low growing Evergreen. It eventually reaches a height of 4 feet, and 6 to 8 feet wide. Postpaid.

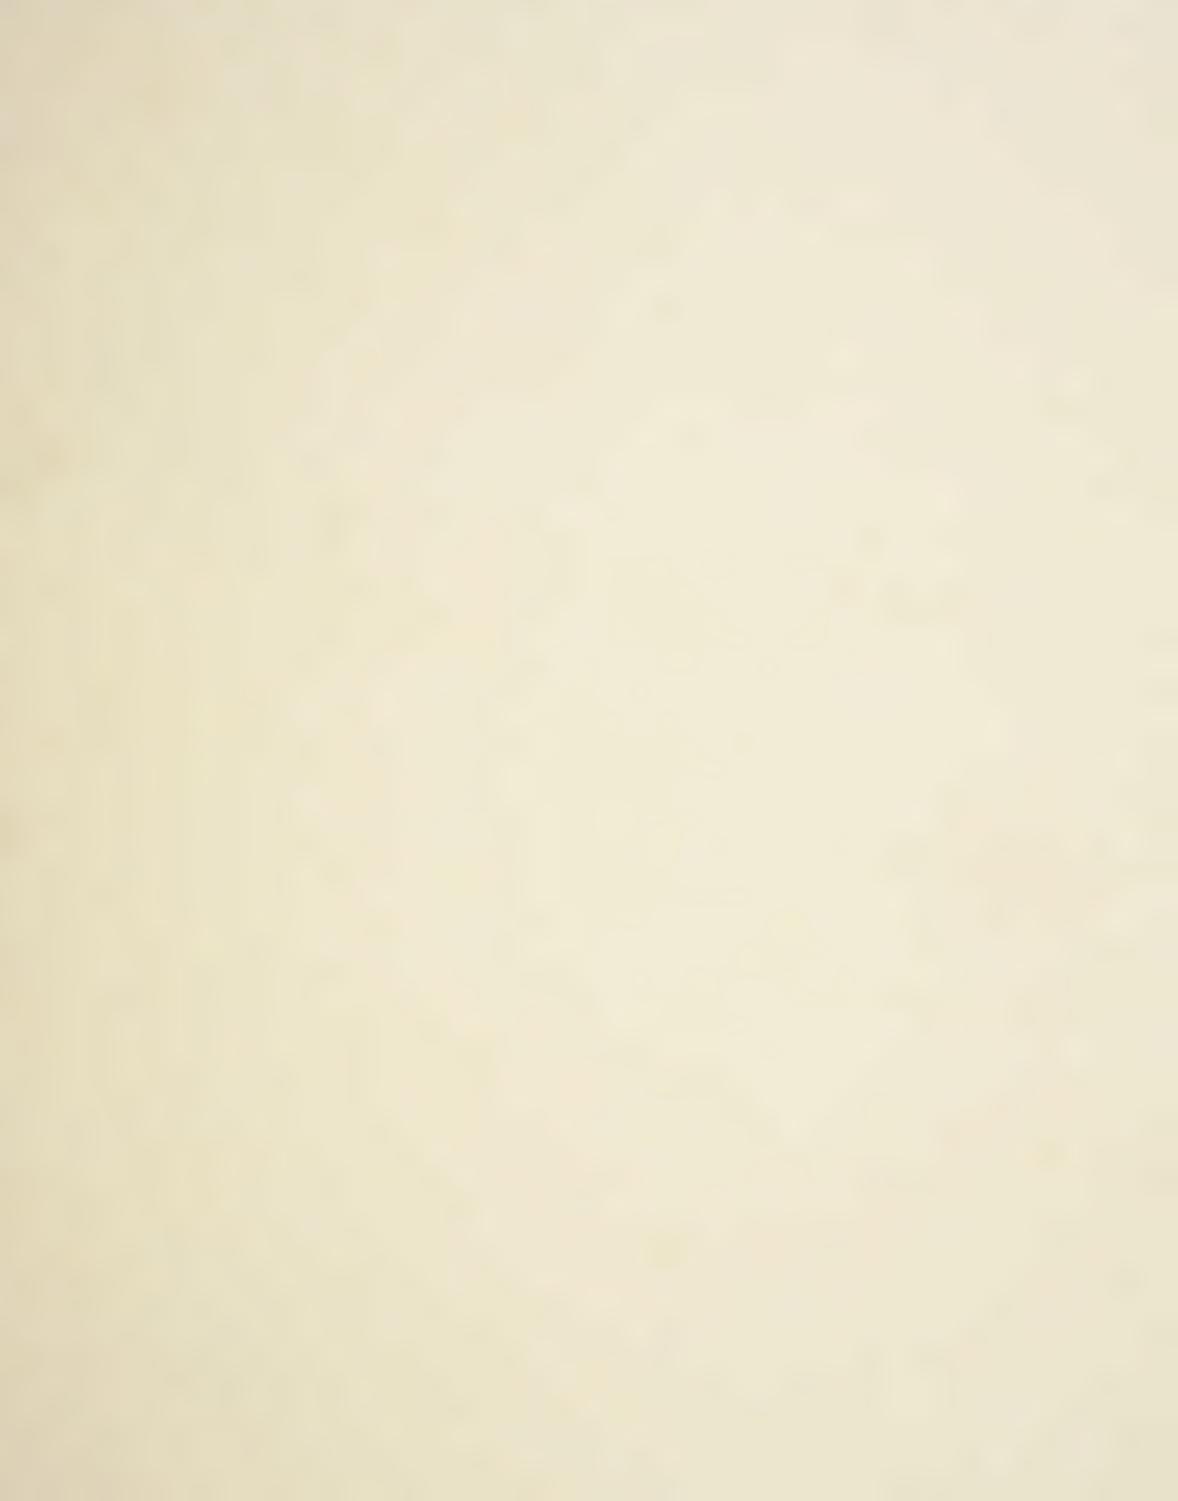

18 inches across, Each \$2.50, 2 for \$4.45

15 inches across, Each 2.15, 2 for 3.75

1 Mme. Chiang Kai-shek

1 Mirandy

1 Crimson Glory

1 Peace

1 Heart's Desire

All 7 for \$11.10 Postpaid

C50 Mirandy (Plant Patent No. 632)—This great rose takes its place with the finest red roses of the world. The color is a rich dark red, a few shades lighter than Crimson Glory, an entirely different color. It has a rich, full-bodied true rose fragrance, one of the most fragrant of all roses. The large buds open into immense fully double flowers with 50 petals and last a long time. Blooms singly on long stems. The plants are very vigorous with luxuriant deep green foliage. Thrives in all rose sections excepting the cool foggy areas on the Pacific Each \$2.00, 3 for \$5.00 Coast. Postpaid.

INTER-STATE'S Climbing Roses

For mass display of color, hardly anything can equal climbing roses in full bloom. Used on porches, arbors, trellises and trailing over fences. All these climbers are hardy, but we recommend that winter protection be given in cold sections. Set 3 to 4 feet apart. All climbing roses are postpaid.

C152 New Dawn (Patent No. 1)—This is the first Everblooming Climbing Rose, and also the first plant that was issued a patent. No other climber will produce as many flowers constantly from late spring to frosts. The flowers are large, a lovely apple-blossom pink, delightfully fragrant. They come on long stems, ideal for cutting. It is hardy. Any day in summer you can go out and find flowers.

C149 Blue Rambler—This climber has the most unusual colored Each 65c, 3 for \$1.65 flowers, steel blue with rose shadings.

C160 Climbing American Beauty—An old favorite with many thousands of friends. The entire plant, from top to bottom, is full of large, fragrant, double, deep rosy-pink flowers. Fine for cutting as they come on long stems. Each \$1.00, 3 for \$2.65

C159 Dr. Huey-It produces strong canes, 8 to 10 feet long, that are completely covered with the richest, darkest crimsonmaroon flowers. We have never yet talked with anyone who did not like it. A big plant, in full bloom, is truly a magnificent Each \$1.00, 3 for \$2.65 sight. It is an ideal pillar rose.

C148 Excelsa—Bright crimson flowers in large clusters. Another old favorite that does well everywhere. Each 65c, 3 for \$1.65

C147 Gardenia-Vigorous climber with handsome glossy foliage and rather large, pale creamy yellow buds and blooms of delicate Each 65c, 3 for \$1.65 ivory, deeper yellow in the center.

C161 Paul's Scarlet-This famous rose is the most popular red climbing rose ever introduced. A mature plant in full bloom is a sight that simply stops everybody who passes by. It is a solid sheet of blazing scarlet. The color does not fade but is as bright when last petals fall as when it opened. The flowers come in clusters on long stems. Plant them on a trellis or porch. A row of them along the fence will be the talk of the town.

Each \$1.00, 3 for \$2.50

C155 Blaze (Plant patent No. 10)—Clusters of brilliant scarlet flowers cover the plant in June and repeat intermittently all season. Holds its bright color in the hottest sun. Plant in good soil as the more it grows, the more it blooms.

Each \$1.50, 3 for \$3.75, 12 for \$15.00

C146 White Dorothy—Great clusters of double white flowers. Each 65c, 3 for \$1.65 Easy to grow everywhere.

C163 Silver Moon-Many think this the most lovely white climbing rose in existence. It is a strong grower. The flowers are large, semi-double, a soft white with just a faint ivory tinge and golden stamens in the center. Each \$1.00, 3 for \$2.65

C164 Thousand Beauty—This great climbing rose is ABSO-LUTELY THORNLESS. It produces lavishly immense clusters of large, double, fragrant, bright pink flowers. It makes a large plant 8 to 10 feet tall. Very hardy. Each 65c, 3 for \$1.65

ALL flowers are beautiful but the Rose is rightfully called the Queen of All Flowers. None other can equal its fragrance, its colorful beauty, its grace, its freedom of bloom from spring to frost—each flower bringing its message of joy, cheer and beauty.

Can you think of another hobby that will provide more pleasure and more beauty for you than growing roses? There is a thrill when you walk into a rose garden and smell the delightful fragrance of the beautiful flowers.

Each year many thousands buy from this fascinating selection of glorious, hardy, everblooming roses. They will commence blooming 7 to 8 weeks after planting. PLANT ROSES EARLY, around the time when people are putting in their early gardens. Plant 15 to 20 inches apart. With each order we send Planting Instructions telling you how to plant and care for your roses.

These are all strictly first quality, hardy, field-grown plants, which have made Inter-State roses famous all over America.

crise-rose with a brightening touch of orange, and the outside is satiny white. The flowers are very full and double, fragrant and produced abundantly throughout the entire season. Extra fine in the garden and unsurpassed for cutting with their long stems. It is a strong, husky, vigorous grower, healthy and hardy. A great rose—a rose that "can take it." Pictured on page 42.

C33 Dame Edith Helen—Very large, perfectly shaped flowers of pure glowing pink, very fragrant, long stems, flowers last a long time. An exhibition

C25 Duquesa de Penaranda—A most intriguing color of orange-apricot, with deeper coppery tones, large pointed buds, sweetly perfumed and long lasting. A tall, strong grower with beautiful light green shiny foliage. One of the first varieties to bloom in the spring. Pictured on page 43.

C27 Editor McFarland—All through the season, the lovely fragrant, glowing pink flowers are produced on long, strong stems, fine for cutting. The buds are perfect. We consider this one of the finest pink roses ever introduced. Pictured on page 40.

C28 E. G. Hill—Large flowers of very lasting dazzling scarlet-crimson, never fading or turning blue, but actually becoming deeper red as they open. The flowers are borne on long stems and are very fragrant. Its brilliant color, extra freedom of bloom and lasting color qualities have made it so popular. Pictured on page 40.

Selected 2-Year, No. 1 Plants

C22 Christopher Stone—A most exciting new rose—a brilliant, sparkling scarlet-crimson without a trace of blue. Shapely long pointed buds open into large attractive flowers with the true old damask rose fragrance. A healthy, vigorous grower and exceedingly free bloomer. Stands lots of heat. Generally considered the best bright red rose. Pictured on page 42.

C21 Condesa de Sastago—Large, fragrant flowers of fiery copper-red inside and rich yellow outside. Strong, healthy, vigorous grower and free bloomer. It is one of the great roses of all time,

C26 Edith Nellie Perkins—One of the finest of all roses. The long, pointed buds come on long stems and open into perfect flowers of orange-cerise and salmon tinged gold inside. Fragrant. Grows vigorously and blooms freely.

C30 Etoile de Hollande— The perfect buds open beautifully into glorious perfect flowers of velvety crimson. Incomparable fragrance. The bush is strong, free branching and healthy. Fine for cutting. Pictured on page 42.

CLOTRACIDE

(Reg. U. S. Pat. Off.)

AN EXCELLENT SPRAY FOR ROSES

Convenient to Use Effective in Results Economical in Price

Clotracide contains all the necessary chemicals for the control of fungus diseases such as Black Spot and Mildew, such leaf eaters as rose slugs which skeletonize foliage, and other leaf-eating worms and insects. In addition to copper, which is the best known fungicide available, Clotracide contains other toxic substances and poisons together with the added essential spreading and wetting ingredients. It is easy to use—just mix with water.

Clean, healthy foliage is essential to grow good roses and other plants. Spray often, spray regularly, spray thoroughly, and keep your plants clean and healthy. Complete directions on every package. Guaranteed satisfaction or money refunded.

K150 \$1.50 per package, postpaid Makes 20 gallons of spray C34 Frau Karl Druschki—The magnificent white rose that is loved by all. Immense long, pointed buds open into graceful flowers that are unsurpassed for form and the color is the clearest, pure white. Perfectly hardy. Such a vigorous grower you should plant them farther apart.

C36 Golden Dawn—This lovely rose has taken the entire world by storm. The gorgeous buds of yellow have splashes of carmine and open into large, fragrant flowers of rich yellow. Hardy, vigorous, free-blooming. Pictured on page 40.

C37 Golden Rapture—Exceedingly fine new rose with fragrant flowers of clear golden yellow. Exquisite buds on long stems, fine for cutting as they last so long.

C38 Gruss an Teplitz—A great bedding rose, always in bloom. The flowers are fragrant, an intense scarlet. Very hardy.

C44 K. A. Victoria—Absolutely perfect, fragrant flowers of ivory-white. An old favorite that even today has not been surpassed. Pictured on page 40.

C46 Margaret McGredy—At first the color is a bright orange-scarlet that lightens to a rich carmine and is beautiful at all times. A healthy, vigorous grower that is always in bloom.

C47 McGredy's Ivory—A magnificent creamy-white rose that is fragrant and deep-petaled. Buds are long pointed, opening into very large, double flowers. Many consider it the finest white rose. Pictured on page 43.

C48 McGredy's Scarlet—A wonderful rose, beautiful in the garden and fine for cutting. The large, perfect flowers of luminous carmine-red are produced generously from spring until frost. Should be in every rose garden. Pictured on page 40.

C49 McGredy's Yellow—This is our favorite yellow rose. The color is so soft and clear and pure. The flower has a charm and grace all its own and entirely distinct. A strong grower and free bloomer. Pictured on page 42.

C56 Mrs. Sam McGredy—Pointed buds open into beautiful fragrant flowers of apricot suffused gold. It is vigorous, hardy, free-blooming.

C51 Mme. Joseph Perraud—This outstanding rose is pictured on page 42. A wonderful exhibition and garden rose. The long slender buds open into fragrant full flowers of nasturtium buff flushed orange. Very vigorous. Large, glossy foliage.

C62 Poinsettia — This free-blooming rose brings to you the brilliance, the glowing red color of the Christmas Poinsettia. Long pointed buds, ideally formed, fine for cutting.

C52 Mme. Jules Bouche—A very fine white garden rose. The sweetly scented blooms are produced very freely all season and last a long time when cut.

C54 Mrs. E. P. Thom—A grand rose of unfading, clear yellow. Strong growing and free-blooming, it has made good all over

c55 Mrs. P. S. DuPont—From early summer until freezing this rose is a glorious sight with its rich yellow flowers. Long pointed buds, fragrant, profuse bloomer. It was the favorite yellow rose in our World's Fair Rose Garden in Chicago. Pictured on page 43.

C60 Pink Dawn—A new rose. Fine for gardening and cutting. Buds are lovely, and open into large, fully double flowers of clear, purest pink. Extremely fragrant. A vigorous grower, hardy and free-blooming.

C59 Picture—We consider this one of the very finest pink roses in existence, a clear pink with just a trace of salmon to give it a warm glow. Delightfully fragrant. The blooms are perfect in bud and when open. Very vigorous plant which blooms continuously. Pictured on page 43.

C64 Pres. Hoover—A 'glorious combination of cerise-toned orange, scarlet and yellow. Richly perfumed, long stemmed and free-blooming.

C66 Radiance, Pink—The great American pink rose, planted everywhere because it has made good all over America. The fragrant flowers are produced abundantly all season.

C67 Radiance, Red—This is one of America's great red roses. Vigorous grower, hardy, healthy, free-blooming, with a true rose fragrance.

C75 Talisman—A glorious combination of orange-yellow and rose-red. The buds are long pointed, flower is double, high centered. The fragrant flowers are freely produced all season and are especially fine for cutting as they come on long stems. The fall bloom is exceptionally gorgeous.

many to be the most beautifully colored of all roses. Mr. Fred Howard, the greatest living American rose hybridizer considers it to be one of his greatest achievements. The long, pointed buds open into simply enormous, yet graceful blooms, so fragrant that you can detect them many yards away. It is a pink with a life, an iridescence, a sheen that is beyond description. Each flower is so perfect, so gorgeous, that you will consider it almost priceless. It is far more beautiful than pictured on page 43.

TREE ROSES

Standard or Tree-shaped roses are grown by budding the variety of rose desired into a tall stem at a height of 36 to 40 inches from the ground, forming a bushy head at the top of this stem. Many rose varieties produce even more blooms when grown in this way than an ordinary bush, and the individual flowers are frequently larger and more brilliantly colored. They bloom from spring to frost. Tree roses are very effective in the garden, emphasizing corners and giving that much desired height. However they must be protected over winter. Most people just bend them over carefully until the stem and top are parallel to the ground

a foot or so above the ground. Then put boards along the side and protect with dirt, or where temperature does not go below zero, leaves mixed with straw, grass or wild hay will do. Your Choice of the Following Colors.

Glorious Floribundas

BLOOM JUNE TO FROST, REMARKABLY HARDY

The profusely blooming Floribundas attract attention everywhere in groups, beds or borders. The flowers are excellent for cutting. Plants are hardy, vigorous, disease-resistant. Plant 15 to 18 inches apart.

C90 Else Poulsen—Year after year this magnificent rose produces many clusters of apple-blossom pink flowers. As a hedge, in the border or solid bed, it is one of the finest of all roses. Hardy, blooms all summer. Grows 24 to 30 inches tall.

C91 Gruss an Aachen-Buds orange-pink, open into double flowers of exquisite orchid-pink. Always in bloom. Makes a rather spreading bush about 15 inches tall. Does fine in partial shade.

C92 Improved Lafayette—This variety is so attractive, that people passing a bed of it will stop and ask the name of the variety. Its cheerful cherry-red, semi-double flowers are produced lavishly from late spring to frost, the most profuse blooming rose we know. Grows 24 to 30 inches tall.

C89 Cecil—Big clusters of large, single bright yellow flowers produced all season on bushy, vigorous plants 18 to 24 inches tall. Very attrac-

EVERBLOOMING BABY ROSES

Plant them in solid beds or borders. They make charming borders for rose beds. They require so little care, and are very hardy. Bloom constantly from late spring to freezing. They grow about 18 inches tall. Plant 12 to 15 inches apart.

C96 Chatillon-The finest lowgrowing pink, with enormous heads of vivid pink flowers all through the season. You will want more after you see it bloom.

C97 Gloria Mundi-Huge clusters of brilliant orange-scarlet flowers, extremely double, cover the bushy plant all season. This variety will be a bright spot in your garden.

C98 Sparkler-The popular lowgrowing red baby rose. It is always full of bright crimson flowers. A solid bed or border is a constant delight.

C100 Mrs. R. M. Finch-Great clusters of fully double 2 inch flowers, light pink changing to almost white. Profuse, continuous bloomer. Grows 24 inches tall.

Inter-State's Glads

THE FINEST OF ALL FLOWERS FOR CUTTING

We guarantee our Gladiolus bulbs to please you when you get them, ALSO WHEN THEY BLOOM. When you receive the bulbs, if you are not satisfied, return just one-half of them and we will refund all the money you paid us for all of them. Also when they bloom, if you are not delighted you may select from our catalog, without cost, anything you wish equal to the amount you paid us for the Glads. We take great care in selecting our varieties and list only the better, finer kinds. That is why we sell them by the millions, with countless thousands of satisfied customers from coast to coast.

The varieties on pages 51 and 52 are all Large Size Bulbs. We do not send out small size bulbs and the medium size bulbs are all used in the Glad Color Parade Collection shown on the catalog envelope. This season our Glad bulbs are the largest and finest we ever grew. Some like to plant extra large bulbs so we are offering the collections on pages 53, 54, 55 and 56 in both the regular large size and also the giant size. All Glads are POSTPAID.

GLAD VARIETIES

G3 Amador — A fine large glowing red of which you will want more. See page 56.

3 for 30c 12 for \$.90 6 for 50c 25 for 1.65

G1 Amrita — Tall spikes of large ruffled flowers, clear buff tinged with pink and a warm yellow throat. See page 55.

3 for 35c 12 for \$1.00 6 for 60c 25 for 1.75

G5 Bagdad—One of the finest Glads of all time. Very large flowers on extremely tall, heavy stems. A magnificent blend of old-rose, lilac, tinged with copper and salmon.

3 for 25c 12 for \$.75 6 for 42c 25 for 1.25

G6 Barcarole—A new variety that many think is the finest orange. The flowers are large, beautifully ruffled, a shimmering orange with a delicate touch of salmon. See page 55.

3 for 35c 12 for \$1.00 6 for 60c 25 for 1.75

G7 Beacon—One of the most brilliantly colored Glads. In the garden and in a bouquet it adds "life." The beautifully ruffled flower is a vivid vermilion-scarlet with light yellow throat. See page 54.

3 for 30c 12 for \$.90 6 for 50c 25 for 1.65 **G12 Bit O'Heaven** — Attractive deep orange with yellow throat. Tall straight stem. See page 56.

3 for 25c 12 for \$.75 6 for 42c 25 for 1.25

G8 Black Opal — Many consider this the finest extremely dark red. The flowers are large and come on excellent long spikes. The color is a very deep maroon shaded black. See page 55.

3 for 35c 12 for \$1.15 6 for 65c 25 for 1.95

G9 Blaze—The brightest, most brilliant scarlet-red in our fields. See page 54.

3 for 35c 12 for \$1.15 6 for 65c 25 for 1.95

G10 Blue Beauty — Rapidly becoming the most popular of its color in America. A wonderful even blue shading darker towards the edges. Large wide open flowers on strong stems. See page 55.

3 for 35c 12 for \$1.15 6 for 65c 25 for 1.95

G11 Brightside — A tall spike of lovely ruffled flowers of deep orange shaded bronze and gold. In a bouquet it is marvelous. See page 54.

3 for 30c 12 for \$.90 6 for 50c 25 for 1.65

This season our Glad bulbs are the largest and finest we ever grew. For this collection we have selected Extra Large Bulbs which will produce flowers of immense size on giant spikes. This grand collection will include a mixture of our finest kinds with colors that rival the rainbow—from white to almost black, purple, blue, apricot, scarlet, salmon, lavender, pink, rose, red, yellow, orange and beautiful blends. It will bring to you beauty, joy and pleasure. Plant these extra large bulbs 6 to 7 inches deep and 8 to 9 inches apart, when the ground warms up. Postpaid.

7G114 50 Giant Bulbs for \$3.50

7G115 100 Giant Bulbs for \$6.50

G14 Camellia — One of the most beautiful Glads in our entire list. Very large flowers on perfect stems. The color is a delicate pink on a creamy background. See page 56.

3 for 30c 12 for \$.90 6 for 50c 25 for 1.65

G16 Charmaine — A new variety with large flowers on tall stems. An especially attractive deep American Beauty Rose color. See page 55.

3 for 40c 12 for \$1.25 6 for 75c 25 for 2.25

G19 Colonial Maid — A lovely light lavender that opens 8 to 10 flowers on a very tall, straight stem. See page 54.

3 for 35c 12 for \$1.15 6 for 65c 25 for 1.95 **G18 Corona** — This new Glad is one of the most beautiful ever grown. Large flowers of ivory white edged pink. The picture on page 53 falls far short of showing its actual beauty.

3 for 50c 12 for \$1.50 6 for 90c 25 for 2.50

G25 Early Melody — One of the best early blooming lavender Glads. Always blooms perfectly. See page 56.

3 for 30c 12 for \$.90 6 for 50c 25 for 1.65

G27 Elizabeth The Queen— This wonderful new variety is the finest lavender we ever saw. The flowers are large, nicely ruffled, an exquisite lavender.

Each \$.50 6 for \$1.75 3 for 1.00 12 for 3.00 **G26 Ethel Cave Cole**—A pure light pink of exquisite beauty with 8 to 10 big flowers open at once.

3 for 40c 12 for \$1.25 6 for 75c 25 for 2.25

G35 High Finance — Large, lightly ruffled flowers of smoky orange-gray, cream throat, very unusual.

3 for 50c 12 for \$1.50 6 for 85c 25 for 2.85

G37 King Arthur—Immense, heavily ruffled flowers of light purple. See page 54.

3 for 40c 12 for \$1.25 6 for 75c 25 for 2.25

G38 King Lear—A magnificent purple of large size and lustrous sheen, beautifully ruffled. See page 56.

3 for 40c 12 for \$1.25 6 for 75c 25 for 2.25

G41 Lavinia — One of the tallest of all Glads, sometimes reaching over 5 feet. The flowers are very large, slightly ruffled and the color is a rich medium-pink with beautiful orchid throat markings. See page 56.

3 for 25c 12 for \$.75 6 for 42c 25 for 1.25

G45 Maid of Orleans — The most popular white Glad. Produces a tall straight spike which opens perfectly. A warm white with a light creamy throat. See page 56.

3 for 25c 12 for \$.75 6 for 42c 25 for 1.25 G46 Margaret Beaton — No new variety has created a greater sensation than this. Everyone who sees it, wants it. The spikes are tall and straight. The flowers are very large, pure snow-white with a vermilion spot in the throat. It is superb. See page 55.

3 for 35c 12 for \$1.00 6 for 60c 25 for 1.75

G47 Margaret Fulton — The florists like this variety because it is such a fine cut flower. The color is a rich, deep salmon. It blooms early and perfectly every year. One of the best all around Glads ever produced.

3 for 25c 12 for \$.75 6 for 42c 25 for 1.25

G52 Marguerite — Luscious ripe watermelon pink with a golden throat. The flowers are huge, on strong stems. It is a Glad out of thousands. See it on page 53.

3 for \$.60 12 for \$1.85 6 for 1.00 25 for 3.50

G49 Minuet-Fine lavender.

3 for 30c 12 for \$.90 6 for 50c 25 for 1.65

G43 Miss Bloomington — Considered the finest early bright yellow. See page 56.

3 for 30c 12 for \$.90 6 for 50c 25 for 1.65

G44 Mother Kadel—One of the very finest new clear rich yellow flowers.

3 for 50c 12 for \$1.50 6 for 90c 25 for 2.85 **G53 Myrna** — This new heavily ruffled white has won more blue ribbons in the last few years, than any other white. See page 54.

3 for 35c 12 for \$1.15 6 for 65c 25 for 1.95

G54 New Era — A delightful rich shade of LaFrance pink with soft creamy throat. The flowers are beautifully ruffled.

3 for 40c 12 for \$1.25 6 for 75c 25 for 2.25

G58 Paradise—Tall fine spikes with lovely flowers of attractive apricot, tinged buff and shaded gold in the throat. Slightly ruffled. See page 56.

3 for 25c 12 for \$.75 6 for 42c 25 for 1.25

G59 Peggy Lou — Few varieties have won more Blue Ribbons than this. Tall strong spikes with lovely flowers of shrimp-pink tinged rose. See page 56.

3 for 25c 12 for \$.75 6 for 42c 25 for 1.25

G60 Pelegrina — We believe this is the best dark blue. See page 54.

3 for 30c 12 for \$.90 6 for 50c 25 for 1.65

G62 Picardy—America's most popular Glad. Wonderful flowers of light salmon-pink. See page 54.

3 for 30c 12 for \$.90 6 for 50c 25 for 1.65

G63 Pink Radiance—An outstanding new light pink. Very large, tall, straight.

3 for 50c 12 for \$1.50 6 for 90c 25 for 2.85

G68 Red Phipps—A glowing shade of coral-red that blends so nicely with other colors.

3 for 25c 12 for \$.75 6 for 42c 25 for 1.25

G69 Rewi Fallu — The most popular dark red. The flowers are very large on tall straight spikes. A deep, rich, velvety blood-red. See page 56.

3 for 30c 12 for \$.90 6 for 50c 25 for 1.65

G71 Ruffled Beauty—One of the very best yellows. The flowers are ruffled and the color is such an even, clear, pure yellow. See page 55.

3 for 35c 12 for \$1.15 6 for 65c 25 for 1.95

G72 Robinson Crusoe-This is the most unusual colored gladiolus we have ever seen. It is a creation of that wizard of new glads and peonies, Mr. E. H. Lins. Everyone who saw it at our place last summer simply fell in love with it. The flowers are very large, beautifully ruffled, with 6 to 8 flowers open at once on a tall massive spike. No other glad in the world like it. The basic color is tan, heavily marbled with rosychocolate. The most unique Glad ever created, it is a sensation. We have only a few hundred bulbs for sale.

Each \$1.25

G70 Rosa Van Lima—This is another variety that everybody wants when they see it. Beautiful in the garden and especially fine for cutting. Large flowers on tall straight stems. The color is a pure, clear pink of such loveliness as is seldom seen. See page 54.

3 for 30c 12 for \$.75 6 for 45c 25 for 1.35

G75 Snow Princess — Many think this the finest white. Very tall strong spikes with immense flowers of pure snowwhite. See page 55.

3 for 35c 12 for \$1.15 6 for 65c 25 for 1.95

G78 Stoplight—A magnificent new variety that is called the perfect red. Tall straight spikes with large exquisitely ruffled flowers of rich velvety crimson. See page 53.

3 for \$.75 12 for \$2.00 6 for 1.25 25 for 3.75

G77 Sweetheart — A waxy pure pink with a small white throat, frilled edges. Especially fine for cutting. See page 56.

3 for 30c 12 for \$.90 6 for 50c 25 for 1.65

Glad has created the greatest sensation of any Glad in the last three years. Flowers are simply-immense, the color is a satiny cream shading to gold. It is far more impressive than shown on page 53.

3 for 75c 6 for \$1.35

G86 Zuni — One of the most spectacular flowers. Tall spikes with large, lightly ruffled flowers of salmon, purple and coppery orange. See page 55.

3 for 40c 12 for \$1.25 6 for 75c 25 for 2.25

7G89 **20** Bulbs for **1.00**

EACH ONE DIFFERENT

In this collection, are exactly the same fine varieties as described on these pages, but they are not labeled. Each bulb is a different color. They are all large bulbs. What wonderful, beautiful flowers of all colors they will bring you this summer. When they bloom, you will easily recognize some of our finest like Margaret Beaton, Picardy, King Lear, etc.

Postpaid

No picture can do justice to these Glads. Only the flowers themselves show their exquisite beauty, the texture, the form, their large size, 5 to 6 inches across. When they bloom you will be so delighted that you will call over your neighbors to enjoy them with vou. At flower shows, they win the blue ribbons. More fully described on pages 51 and 52. Postpaid.

Grow Prize Dahlias

Dahlias are the largest and most beautifully colored of all the late summer and fall flowers. Easy to grow, we send simple planting instructions with every order. For exhibition, nip off the side branches allowing only a few main stems to grow. For lots of flowers, nip the ends of the main shoots when only a foot or so tall, making them branch. A young, small to medum-size bulb will do much better than a large, sappy, over-grown bulb. Even though Dahlias are planted late, we suggest that you order them early. They will keep perfectly in a moderately cool place, until planting. time. ALL DAHLIAS ARE POSTPAID.

GIANT COLLECTION

These are four of America's outstanding Dahlias, with huge flowers of brilliant colors. Our supply of dahlias is still limited so we dare not show them in color or we would not have enough. These are Blue Ribbon winners and will make your garden a center of attraction.

Inter-States Hardy Perennials for Lasting Beauty

HARDY FERNS

Many ask us, "What can I plant in shady places?" Among the very best, are these Hardy Ferns. They thrive in the shade. That is their natural home. Perfectly hardy, they come up year after year. Also very fine to put in bouquets.

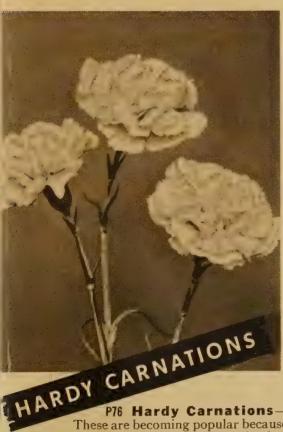

P120 American Maidenhair—Fine on the north side. Grows about a foot tall.

P121 Hayscented—Grows in semi-sunny places as well as shade. 12 to 18 inches tall.

P122 Interrupted—Good for foundation planting in shade or part-shade. 2 to 4 feet tall.

P123 Lady-Pictured. Likes the shade. 1 to 2 feet

P124 Ostrich Plume—Especially fine for a shady, rather moist spot. 2 to 4 feet tall.

P76 Hardy Carnations— These are becoming popular because they are not only lovely in the garden but are fine for cutting. The flowers are very fragrant and come on long stems. Bloom freely in early summer and at intervals thereafter. Grow 18 to 20 inches tall. They are hardy but in cold sections, we recommend a light winter mulch to prevent alternate freezing and thawing. Postpaid.

Shasta Daisy, White Swan

Shasta Daisy, Alaska Supreme

Inter-State's Hardy Perennials for Lasting Beauty

P112 Dianthus, Little Joe—This is one of our choicest dwarf hardy perennials. It makes a neat bushy little plant only 6 inches tall with glaucous foliage producing all summer the rosy-red flowers, 1 inch across. Postpaid. 3 for \$1.25, Each 50c

P61 Artemisia, Silver King—The frostysilver foliage is excellent background in the garden and fine for bouquets. Grows 3 feet tall. Cut for winter bouquets. 4 for \$1.00, 2 for 60c

P58 Bleeding Heart — A favorite in Grandmother's garden half a century ago, it is equally popular today. Grows 2 leet tall. Thrives in partial shade, but will grow in full sun. Attractive foliage. Graceful heart-shaped pink flowers in April-May. The plant becomes larger, more beautiful, each passing year. Postpaid.

3 for \$1.65, Each 60c it is equally popular today. Grows 2 feet

P264 Shasta Daisy, White Swan-For a long time in late spring and early summer, this plant produces great quantities of the double white flowers on long stems fine for cutting. Grows 18 inches tall. Postpaid. 4 for \$1.00, 2 for 60c

RA-PID-GRO is fine for Perennials. See Page 36.

P241 Pyrethrum (Painted Daisy)—This is the superb Robinson strain, the finest we know. The flowers are larger and brighter colored, the most gorgeous reds, fine pinks and pure whites, all mixed to blend beautifully. Long stems fine for cutting. Blooms profusely in the spring and early summer. Grows about 24 inches tall. We are making a very special price so that you can plant them freely. Postpaid.

12 for \$1.85, 6 for \$1.00, 3 for 60c

P276 Shasta Daisy, Alaska Supreme-This is the hardiest and best single-flowered Shasta Daisy we know. It has never winter-killed for us. The white flowers are large, 4 inches or more across. Blooms very freely in June-July and occasionally thereafter, especially if you keep the flowers cut. Lovely in the garden and fine for cutting. Grown from divisions, not seed. Grows 2 feet tall. Postpaid.

3 for \$1.00, Each 40c

P226 Plantain Lily (Funkia Sub. Grand) -One of our best, most useful plants. Hardy, grows anywhere, in sun or shade. Especially fine for shady places where few plants will live. Makes fine ground cover for lily beds. It grows 18 inches tall, has attractive foliage and blooms freely in August-September. The large flowers are snow-white, fragrant and resemble Easter Lilies. Postpaid. 3 for \$1.50, Each 60c

Gypsophila (Baby's Breath)

Delphinium, Pacific Hybrids

P64 Canterbury Bells—In May-June completely covered with bell-shaped flowers. 2 feet tall. Your choice of Blue, Pink or White

P104 Delphinium, Chinese Blue—Navy blue flowers in early summer. Grows 2 to 3 feet tall with fine feathery foliage.

P100 Delphinium, Cliveden Beauty— Many think that this is the finest of all light blue flowers. Grows 3 to 4 feet tall and blooms at intervals all summer. A healthy, vigorous grower that lasts for many years. Lovely in the garden and an exceptionally fine cut flower

P101 Delphinium, La Martine-Should be in every garden. The rich, dark blue flowers are so lovely, both in the garden and for cutting. A great mass of flowers in early summer and at intervals all summer. Cut a flower spike and another grows out to bloom later. A healthy, vigorous grower 4 feet tall that lasts for years.

P102 Delphinium, Pacific Hybrids-The flowers are immense, $2\frac{1}{2}$ to 3 inches across. The colors range from pure white, sky-blue to deepest indigo-blue, purples, violets, and those exquisite shades of orchid-pink. The plants grow 4 to 7 feet tall with flower trusses often 3 to 4 feet long. Cut the stems after the first great burst of bloom and they will repeat.

P150 Gypsophila (Baby's Breath)—2 to 3 ft. Great masses of small white flowers in July-August. Lovely in the garden and fine for cutting. It gives an airy effect no other flower can give.

P151 Gypsophila, Oldhamiana — Great masses of small light pink flowers August to frost. Lovely in the garden, fine for cutting. Grows $2\frac{1}{2}$ feet tall.

P140 Gaillardia, Burgundy - Large red flowers all summer. Easy to grow. 2 feet.

P142 Gaillardia, Monarch - Blooms from June to frost, even right through summer's hottest weather. The flowers are large, red center and broad yellow border. On fine stems for cutting. Grows about 2 feet tall and likes a sunny spot.

Dianthus, Spring Beauty

P113 Dianthus, Spring Beauty—Large, carnation-like flowers for many weeks. Very fragrant. Many lovely colors. 15 inches.

P155 Dianthus, Everblooming Red—Intense scarlet flowers all summer. 12 inches tall.

P315 Linum, Blue Flax—Even without the lovely blue flowers all summer long, the gracefully feathery foliage makes it worth while. 12 inches.

P269 Scabiosa, House's Hybrids — Especially fine for cutting as the large flowers, in various shades of blue, come singly on long stems, from midsummer to frost. 21/2 feet.

P275 Shasta Daisy, Conqueror — No garden can do without them. In late spring and early summer, the large white flowers with golden centers are so attractive in the garden and very fine for cutting. 2 to 3 feet.

P259 Vinca Minor, Bowles (Periwinkle) This is our best ground cover. Fine for covering banks and bare spots, even right under trees. The glossy green foliage stays on all winter. Does not get brown in the summer. A profusion of bright blue flowers in early summer and scattering until fall. Plant $1\frac{1}{2}$ to 2 feet apart.

Gaillardia

ORIENTAL POPPIES

At Special Reduced Prices

Oriental Poppy is a hardy perennial which comes up year after year, blooming right after the Iris and Peonies. They do best when planted in late summer and early fall. THEREFORE THESE PLANTS

WILL BE SHIPPED TO YOU IN AUGUST-SEPTEMBER when they are dormant and in best condition for planting. Planting instructions sent with each order.

We are making special Poppy prices in this catalog which are good only until June 1, 1947. Prices next fall will undoubtedly be higher. POSTPAID.

PINK LASSIE (Aksarben)

P375 Huge flowers of shell-pink with maroon-red basal spots instead of the usual black. The broad petals overlap and have a satiny-crepy texture and are heavily ruffled. Grows about 3 feet tall. Very hardy, vigorous and free-blooming. Without doubt, it is one of the finest of all Poppies.

Each 50c, 3 for \$1.25

SALMON GLOW

P384 This is the first of a new race of Poppies with large, double flowers 6 to 8 inches across on stems nearly 3 feet tall. The color is a glowing orange lighted with sparkling salmon, adding life and brilliance to any planting. The flowers will not attain full size and be fully double until the second spring.

Each 50c, 3 for \$1.25

GLOWING EMBERS

P374 You are sure to like this Poppy because of its delightfully rich red pleasing color. The flowers are cup-shaped, perfectly formed and beautifully ruffled. It is a vigorous grower and extremely free-blooming, with strong stems a good 3 feet tall. It stays in bloom longer than any Poppy we know.

Each 50c, 3 for \$1.25

POPPY SPECIAL

1 Each of All 3 Above Poppies for only \$1.00

FAMOUS SASS IRIS

You may wonder how new Iris are created. The hybridizers take the pollen from a selected plant and put it on another. When the seed is matured it is planted. The small plants are then transplanted into blocks. When they bloom, those which show the most promise of being outstanding are then planted into a block by themselves and are carefully watched. The standards of the Sass Brothers are so high that only a very few are named and introduced at prices from \$15.00 to \$100.00 each. Yet those which are not named are very fine, superior to the general list of Iris varieties. We bought from the Sass's a block of their selected seedlings at a special price and we are passing this saving right on to you so that you can have right in your own garden some of these marvelous new Sass Iris, noted for their exquisite colors, new blends, freedom of bloom and the great vigor and hardiness of the plants. We guarantee these to please you when they bloom.

7P409 7 Sass Seedling Iris, All Different, not labeled for only \$1.00 Postpaid.

NOTICE

All Iris on this page and also opposite page will be shipped to you this summer, during July-August, after they are through blooming and are in perfect condition to plant. What glorious flowers they will bring you next season.

SELECTED IRIS

From many varieties we carefully selected these Iris. We tell you frankly that they are not as new as Prairie Sunset, Great Lakes, etc., yet they are far better than the Iris found in most gardens today. They have large flowers with beautiful colors and freely produced. We guarantee them to please you when they bloom. They are far superior to the older varieties. These will be shipped to you in July-August.

P455 Blended Beauty—A lovely blend of gold and bright rose.

P437 California Gold—The most popular medium-priced bright yellow.

P444 Cheerio—Brilliant flowers of vivid red.

P438 Indian Hills—Its unusual bright true red-purple flowers will make a beauty spot.

P462 Michael Angelo—None other like it, a lustrous, iridescent gray.

P472 Sierra Blue—This tall clear medium blue won the Dykes medal in 1935.

Inter-States new, improved, long-spurred Columbine

P78 This color photograph gives you a glimpse of the beauty of these Columbines (Aquilegia). They are even more beautiful in the garden as they nod gracefully in the breezes. The colors are so rich, so clear, so exquisitely lovely and they blend perfectly. They bring to your garden or a bouquet, a "fairy" touch that no other flower can give. The flowers are much larger than pictured, up to 3 inches across with spurs 4 to 5 inches long. We believe these are the finest Columbines sold today, the result of many years of selection. They come up year after year, growing 2 to 3 feet tall and blooming so generously in the spring. They thrive in any ordinary soil and prefer a partially shaded spot where they are protected from the hot afternoon sun. We send you field-

grown plants which will bloom this season in your garden. You can plant them freely at this special price. POSTPAID.

Mixed Colors

This is a very fine mixture of all the lovely Columbine colors which blend so beautifully.

Crimson Beauty Lily

REGAL, AMERICA'S FAVORITE LILY

For Late Spring and Early Summer Bloom

B85 This is America's favorite hardy Lily. We sell them by the hundred thousand. The picture at the left does not begin to do justice to it. Many of you have some in your garden and yet you want more. They are useful in so many different spots. They have a distinctive beauty that is found in few flowers. Just plant them 7 or 8 inches deep in well-drained, ordinary soil, in a sunny or partially shaded location. They will come up year after year, multiplying and giving you more flowers each passing year. Blooms in June-July on stems 3 to 4 feet tall. After it is established it is nothing uncommon to have great clusters of 15, 20 or even 25 flowers on a stem. The exquisite flowers are fragrant, snow-white with a golden throat and tinged pink on the outside. All bulbs will bloom this summer. The larger bulbs will produce more flowers and are well worth the little extra cost. Our prices are low so you can plant them freely. You never get too many. Postpaid.

for Summer Garden Beauty!

PHILIPPINE LILY

For Late Summer and Fall Bloom

883 Never since it was introduced a few years ago, has there been enough bulbs to supply the demand for this fine Lily. It is so easy to grow and sure to bloom. The lovely, fragrant white flowers are large, 7 to 8 inches long, on strong stems, 4 to 6 feet tall. Blooms for many weeks, from late summer to frost. Beautiful in the garden and fine for cutting. Plant them freely, they are so lovely.

6 for \$2.00 3 for \$1.15 Each 50c Postpaid

DREAM LILY

For Midsummer Bloom

B81 Another magnificent Lily that is almost identical with the Philippine but it blooms 4 to 5 weeks earlier. The lovely white flowers are just as large, just as fragrant, just as beautiful and produced just as freely. The stems are somewhat shorter, around 4 feet tall. Blooms between the Regal and Philippine, filling out the season so you can have lovely Lilies in the late spring, summer and fall.

ANNUAL VINES

Decorative

289 Gourds, Ornamental Mixed—This special mixture of the large and small ornamental varieties is very interesting.

287 Cardinal Climber, Ipomea Hyb.

—A mass of fiery red flowers from midsummer until frost. Everybody admires this strong and rapid growing annual vine.

291 Morning Glory, Giant Japanese Mixed—Large flowers and gay colors that you will enjoy. Like poor soil and full sun.

810 MORNING GLORY VINE SPECIAL

1 Imp. Heavenly Blue

1 Pearly Gates

1 Scarlett O'Hara

All 3 for just 25c POSTPAID

292 Morning Glory, Imp. Heavenly Blue—Clarke's Strain. The large, lovely, true-blue flowers with a lighter throat give a mass of beauty. Fine for trellis or arches. A coarse gravelly soil and a southern exposure gives an abundance of morning bloom until frost.

293 Morning Glory, Pearly Gates—Silver Medal Winner in 1942 All-America Selections. The flowers are a lovely lustrous white with creamy shading deep in the throat. They average $4\frac{1}{2}$ inches across. Vines are covered with bloom from midsummer to frost. A wonderful companion for Heavenly Blue.

306 Morning Glory, Scarlett O'Hara— The All-America GOLD MEDAL Winner that has created so much interest. The rich, wine-red flowers of good size are freely produced and last longer.

307 Morning Glory, Cornell—A new, annual climber with flowers of intense red with pure white border, as large in size as Heavenly Blue. Makes a rapid growth.

103 African Daisy, Hybrids Mixed (15)—Compact, bushy plants with white, orange, gold and salmon blossoms from July to October. Very fine for cutting.

107 Alyssum Procumbens, Carpet of Snow (4)—The dwarf, white, edging plant that is so desirable. Blooms all summer and fall. Each plant is a compact mass of snow-white blossoms.

122 Alyssum, Violet Queen (6)—A new dwarf compact variety bearing beautiful bright violet flowers all summer and fall. It is a pleasing contrast to the white flowering alyssums.

118 Bachelor Button, Double Mixed (20)—An abundance of double, colorful flowers from July until frost. Fine for cutting.

119 Bachelor Button, Jubilee Gem (12)—A dwarf, compact plant of bright green. A delightful background for the double, dark blue flowers.

123 Calendula, Sunshine (18)—The large buttercup-yellow flowers bloom over a long period and are excellent for cutting.

124 Calendula, Campfire (24)—The large, dark orange flowers with a scarlet sheen are very attractive.

125 Calendula, Finest Double Mixed (18)—The old fashioned, free-flowering Pot Marigold of yellow and orange.

127 Campanula, Cup and Saucer, Canterbury Bell (20)—An easily grown biennial that gives a profusion of blue, rose, and white flowers.

129 Canterbury Bell, Annual Mixed (24)—Blue, pink, rose, violet, and white flowers in late summer and autumn. A fine border flower.

130 Carnation, Chabaud's Giant Imp. (16)—Our most popular early flowering clove-scented carnation. The robust, long-stemmed plants give continuous bloom.

131 Castor Bean, Ricinus (120)—Tall-growing background plant with ornamental foliage. Useful for screening alleys and unsightly places.

136 Cockscomb, Celosia Cristata (30)

—The velvety-red heads of this old fashioned celosia add color to the garden.

139 Cosmos, Sensation Mixed (45)—
—Immense pink and white blooms are truly a sensation, and are a great favorite for cutting.

141 Cosmos, Mam. Early Flowering Mixed (48)—The large, single flowers of red, pink, and white make a lovely showing from midsummer until frost.

303 Dahlia, New Dwarf Hybrids (20)— This new strain of Dahlias is selected to give a higher percentage of true doubles and a much wider range of colors.

145 **Dianthus, Pinks, Heddewigi Dbl. Mixed** (12)—The freely-produced flowers of crimson, purple, pink, and white are fine for cutting.

148 Four O'Clocks, Marvel of Peru (24)—Flowers of red, yellow, lilac and white. The glossy foliage and profuse bloom make it an attractive border plant from July until frost.

154 Gypsophila, Annual Baby's Breath (15)—This improved London Market strain gives an abundance of large, pure white flowers. Make several plantings for continuous bloom.

182 Painted Daisies, Finest Mixed (18)
—The annual Chrysanthemum is easily grown and loved by all. Early blooms, choice colors.

183 Pansy, Giant Superb Mixed (6)—A large flowering strain in a beautiful color range.

308 Pansy, Super Swiss Giants (6)— For size, color, and free blooming qualities this garden favorite is unsurpassed.

196 Poppies, American Legion (30)—Brilliant scarlet that brightens your flower garden. The best red Poppy.

205 Poppies, Eschscholtzia, Calif. Mixed (12)—A free blooming annual rich in crimson, pink, and orange-scarlet shades. Very showy.

209 Portulaca, Rose Moss, Dbl. Mixed (4)—Our unsurpassed, choice doubles. Delicate green foliage simply covered all season with bright colored flowers. The flowers resemble small roses and in dry weather are at their best.

225 Snapdragon, New Calif. Rustproof (24)—The finest color range of all the Rust Resistant Mixtures. Beautiful in beds and fine for cutting.

226 Snapdragon, Super Giants, Rustproof (30)—A mixture of our own selection, taller in habit than the California type and bearing larger blossoms.

dragons (30)—Giant Ruffled Tetraploid Snapdragons are the largest flowered of all Snaps. Very distinctly and attractively ruffled in richer, brighter and clearer colors and combinations of beautiful tone blendings. We are pleased to offer this variety to our customers this year. Try them and you will be amazed with their beauty. Pkt. 25c

228 Strawflowers, Everlastings, Mixed (20)—Our own collection of many kinds especially selected for your winter and decorative bouquets.

243 Sweet William, Single Mixed (18)
—Pink, crimson, scarlet and white blooms in early spring.

248 Verbena, Giant Hybrids (10)— Fine for borders, beds, porch boxes and among tall growing plants like Lilies. Bloom all summer and fall. All colors mixed.

America's Finest New Mu

The five Chrysanthemums pictured are new creations by Dr. Kraus of the University of Chicago. They were selected from many thousands of new seedlings and careful observation has shown that they are definite improvements. They make vigorous plants and start blooming in September. When in full bloom the flowers cover the plants and they are a magnificent sight. The blooms are larger than pictured. ALL MUMS ARE POSTPAID.

THE 5 FAMOUS

Eushion Mums

The Cushion Mums pictured here in natural color cannot begin to show you the exquisite beauty and loveliness of the BUSHELS OF BLOOMS these plants produce from late summer until late fall. They grow about 2 feet tall and 2 to 3 feet wide, perfectly hardy, come up year after year and are so easy to grow. It is almost unbelievable the many hundreds of blooms these plants produce. You can pick bouquet after bouquet after all other flowers are gone. The flowers are much larger than pictured. Our plants will bloom this season.

One packet of Bush Beans will plant 25 feet and 1 pound 150 feet. Make successive plantings of bush beans and have fresh beans all summer and fall.

DWARF GREEN POD BUSH BEANS

*401 Burpee's Stringless Green Pod (50 days)—This is, by far, our most popular bush bean. It produces long, round meaty pods that are always tender and absolutely stringless even when full grown. It cannot be beat for table use or canning. Its quality, productiveness and tenderness have never been surpassed. We believe that it will produce more than any other variety and produce for a longer period of time.

400 Keystonian (53 days)—This new stringless, green bean won the All-America Selection. It is excellent for any purpose, canning or freezing. Similar to the Stringless Green Pod with a long, straight, tender pod of finest flavor.

402 Plentiful (49 days)—A new green bean that won All-America Award in 1939. Long, thick, meaty, flat pods, absolutely stringless and excellent quality. Produces over a very long season.

*403 Tendergreen (53 days)—A new green bean so tender that it fairly melts in your mouth. Absolutely stringless, very highest quality and productive. Fine for table use and canning and best of all for freezing. All who plant it are enthusiastic.

405 Stringless Red Valentine (52 days)
—This round stringless green bean is a dependable bearer of enormous crops. Tender and stringless.

DWARF WAX POD BEANS

*406 Brittle Wax (54 days)—This is our best and most popular wax bean. Superb quality, very early and very productive. The long, round pods are perfectly stringless at all times, very tender, light yellow. Many think this the finest quality of all beans, wax or green. Easy to grow as it is blight resistant and stands dry weather.

408 **Pencil Pod Black Wax** (53 days)—This popular wax bean has long golden-yellow, tender, stringless curved pods.

407 **Top Notch Golden Wax** (50 days) —Pods are deep yellow, straight, thick, flat, stringless and fine quality. Productive, rust-proof. Fine for canning.

POLE BEANS

413 **Kentucky Wonder** (65 days)—Most widely planted pole bean. Bears early with clusters of long, curved green pods with tasty distinctive flavor. The more you pick them, the more they bear, until frost. Light brown seeds.

415 King of the Garden (86 days)—The finest pole lima. Mammoth size pods, well-filled, are produced from the bottom of the vine up, until frost. White beans when dry.

BUSH LIMA BEANS

411 Burpee's Improved Bush Lima (75 days)—A large, meaty, delicious Lima. Long, broad, tender flat pods. Very productive, it produces right up to frost. When dry the beans are large, plump, white with a light greenish tinge.

416 Cangreen (68 days)—A new Lima similar to Henderson's except the beans are a little larger and when dry they remain an attractive green color. Extremely productive, all season. If you plan to can some Limas, be sure and plant some Cangreen because the beans look fine in the jar and taste as good as they look.

412 Henderson's Baby Lima (65 days)

—A tremendous yielder, a short row will give you these delicious butter beans right up to frost. The green pods are about 3 inches long. The beans are small and creamy-white when dry.

FIELD BEANS

409 Improved Navy (85 days)—The small white, soup bean. Plant some for your winter's supply for soup and baking.
410 Red Kidney (94 days)—The dark red bean used in chili, soups, etc.

905 BEAN SPECIAL
3 lbs. for \$1.00

Your choice alike or assorted

BEETS Contain vitamins A, B1, C, G, also minerals. The Beet greens contain Iron, calcium, phosphorus, A, C, and G.

One Pkt. will sow 20 to 25 feet; one Oz. 75 to 100 feet.

*420 Detroit Dark Red Improved (61 days)— The most popular beet for the home garden and canning. Globe shaped, very smooth, a deep oxblood-red color. Very tender and sweet at all stages of growth, without a trace of woodiness.

422 Early Blood Turnip (60 days)—A good dependable midseason variety. Nearly round, deep red with brighter red zones. High quality. *421 Crosby's Egyptian (55 days)—Extra early, semi-flat, very tender and sweet. Flesh is distinct dark red and keeps its color in cooking. Free from woodiness. Fine for the first beets from your garden.

POSTPAID PRICES ON ALL BEETS

1/2 Oz. 18c

1 Oz. 30c

1/4 Lb. 85c

CABBAGE Contains vitamins A, B1, C, G, P.P., Calcium, Iron.

1 Pkt. will produce 100 or more plants; 1 Oz. 2500 plants.

434 Early Flat Dutch (75 days)—An early, unusually fine, large, solid, flat-headed type. Fine quality, 5 to 6 pound heads. Keeps well.

Pkt. 10c; ½ Oz. 25c; 1 Oz. 43c

435 Danish Ballhead (100 days)—Our most popular late cabbage, producing round compact heads weighing from 7 to 9 pounds. Excellent keeper. Very crisp and tender. Fine for kraut. Pkt. 10c; 1/2 Oz. 28c; 1 Oz. 50c

436 Early Jersey Wakefield (60 days)—An extra early variety with cone-shaped heads, 2 to 3 pounds each.

Pkt. 10c; 1/2 Oz. 25c; 1 Oz. 40c

*438 Marion Market (75 days)—A Yellows Resistant strain of Copenhagen Market. A sure heading, main crop variety. Our most popular cabbage. Excellent quality, has short stems and is good for early kraut and all cooking purposes. Weighs 4 to 5 pounds.

Pkt. 10c; ½ Oz. 35c; 1 Oz. 60c

439 Premium Late Flat Dutch (100 days)-Very popular large, flat headed winter cabbage. Fine quality, solid, good keeper and fine for kraut. Heads weigh from 13 to 15 pounds.

Pkt. 10c; ½ Oz. 28c; 1 Oz. 50c

437 Golden Acre (65 days)—An extra early garden variety with round firm heads weighing about 4 pounds each. Resists bursting.

Pkt. 10c; ½ Oz. 28c; 1 Oz. 50c

CARROTS Contain vitamins A, B1, C, G, P.P., Calcium, Phosphorus, Iron.

One Pkt. will sow 35 feet; One Oz. 200 feet. *426 Improved Chantenay (70 days)—The outstanding favorite with people who grow carrots in their garden. This is a very choice strain producing large, thick, six-inch orange roots, very tender, high quality and free from hard core. Very heavy yielder.

Pkt. 10c; 1/2 Oz. 25c; 1 Oz. 45c

430 Oxheart (72 days)—Especially good for rather stiff, hard soil because the roots are short and stubby. A good keeper. Bright orange, tender and sweet

Pkt. 10c; 1/2 Oz. 25c; 1 Oz. 45c

*427 Coreless Nantes (68 days)—We especially recommend this for the home garden because of its extra fine quality. The roots are deep orange, very tender and sweet from 6 to 7 inches long and the same size from top to bottom.

Pkt. 10c; 1/2 Oz. 30c; 1 Oz. 50c

429 Danvers Half Long (75 days)-Very productive. Keeps all winter. Does well in all classes of soil. Smooth, deep orange roots, about 7 inches long, tapering to a blunt point. Sweet, tender and crisp

Pkt. 10c; 1/2 Oz. 25c; 1 Oz. 45c

CELERY Contains vitamins A, B1, C, G, Calcium, Iron, Phosphorus.

432 Giant Pascal (140 days)—Large late winter variety, delicious flavor. Easily blanched by trenching to a beautiful creamy white.

Pkt. 10c; 1/2 Oz. 44c

431 Golden Self Blanching (118 days)-Early. Stalk is thick, solid, medium long and free from pithiness. Blanches itself to a golden yellow.

Pkt. 10c; 1/2 Oz. 44c

CUCUMBERS Contain vitamins A, B1, C, G, Phosphorus, Iron.

One Packet will plant 15 hills; one Ounce, 65 to 70 hills.

452 Chicago Pickle (58 days)—Very popular early variety. Very productive. Pickles are uniform size, medium green and square ended. Pkt. 10c; ½ Oz. 16c; 1 Oz. 27c.

*453 Improved Long Green (62 days)—The best and most popular all-purpose cucumber, fine for slicing and pickling. It does well in every section, producing heavily when other kinds give up. It is medium dark green, crisp, few seeds. Pkt. 10c; ½ Oz. 18c; 1 Oz. 30c.

*454 Select National Pickling (55 days)-Our most popular pickling type. Of uniform size and color, as firm after pickling as before. Very early and enormously productive. Even size, straight, with square blunt ends, deep green color. Pkt. 10c; ½ Oz. 16c; 1 Oz. 27c.

456 Straight Eight (58 days)—A new white spine type, very productive, long straight fruits of an ideal green color. Averages about 8 inches long. Pkt. 10c; ½ Oz. 20c; 1 Oz. 35c.

SWEET CORN Contains vitamins B₁, C, Phosphorus, Iron. (Also Vitamins A and G in yellow sweet corn)

One packet will sow 60 feet or more; 1 Lb. 400 feet.

*450 Tendermost (83 days)—The most tender of all our yellow hybrids, giant size kernels of sugary-sweet goodness with a tender hull. Very large ears averaging nine inches in length with 14 to 16 rows of regular kernels. A high-yielder that stays sweet and tender on the stalk for nearly two weeks. Good resistance to smut and ear worm.

Large Pkt. 10c; 1/2 Lb. 38c; 1 Lb. 70c

*443 Aristogold Bantam Evergreen (87 days)-This is the largest, high quality yellow hybrid sweet corn we have ever seen. About a week later than Golden Cross, the ears are a little larger, equally fine quality and even more productive. The two together make a great team. Stands the heat, drought and wind.

Large Pkt. 10c; 1/2 Lb. 38c; 1 Lb. 70c

*444 Earligold (72 days)—Plant this for the first sweet corn of the summer. It is the earliest yellow hybrid and the ears have 12 to 16 rows, delicious, tender and sweet. You will want more next year.

Large Pkt. 10c; 1/2 Lb. 38c; 1 Lb. 70c

447 Golden Bantam (78 days)—The favorite yellow sweet corn for many years. Very early, small ears, tender and sweet.

Large Pkt. 10c; 1/2 Lb. 20c; 1 Lb. 35c

*445 Golden Cross Bantam (82 days)—Our most popular yellow hybrid, producing 12 rowed ears, 8 inches long. It is about 3 times as productive as Golden Bantam. It is also resistant to bacterial wilt which often causes failure with early yellow corn. We honestly believe that once you grow this corn, you will always want it. The kernels are so tender and sweet they fairly melt in your mouth.

Large Pkt. 10c; 1/2 Lb. 30c; 1 Lb. 55c

445A Hybrid Blends-A special blend of all the finer yellow hybrids to give you an all season supply with only one planting. It contains early, medium, and late varieties. Thus all your sweet corn does not come on at once, and you can enjoy sweet corn all season long from just one planting

Large Pkt. 10c; 1/2 Lb. 34c; 1 Lb. 60c.

449 Stowell's Evergreen (94 days)—The standard main crop white sweet corn. Large ears, sweet and stays tender a long time. Especially fine for canning.

Large Pkt. 10c; ½ Lb. 22c; 1 Lb. 36c.

*446 Tendergold (75 days)—A very fine yellow hybrid corn that is sweet, tender and of finest quality. Matures a few days earlier than Golden Bantam. Much more productive and holds its quality two to three days longer than other corns. The golden ears are 12 rowed about 8 inches long

Large Pkt. 10c; 1/2 Lb. 33c; 1 Lb. 60c.

448 Country Gentleman (90 days)—The late white corn with long, deep grained kernels irregularly arranged. Often called the shoe-peg type. A heavy yielder.

Large Pkt. 10c; 1/2 Lb. 22c; 1 Lb. 39c.

All Summer Corn Special

Aristogold Earligold Golden Cross Tendergold

These are the finest Yellow Hybrids giving you delicious corn for many weeks.

LETTUCE Contains vitamins A, B1, C, G, Calcium, Phosphorus, Iron.

One Packet of seed will sow 40 to 50 feet, one Ounce, 200 feet.

*462 Black Seeded Simpson (46 days)-Our most popular loose leaf lettuce. The broad, frilled light green leaves are crisp, tender and of excellent quality. It is very early, does Pkt. 10c; 1 Oz. 23c. well everywhere.

463 Early Curled Simpson (45 days —Large, light green ruffled leaves make this a fine home garden lettuce. Crisp and sweet.

Pkt. 10c; 1 Oz. 23c.

*464 Early Prizehead (45 days)—An early, non-heading home garden variety. The crim-pled, crisp, tender leaves are tinged brownish red. Pkt. 10c; 1 Oz. 23c.

466 Iceberg (82 days)—Large, solid heads, white inside, crisp and of excellent quality. Pkt. 10c; 1/2 Oz. 20c. popular head lettuce.

467 Imperial No. 44 (70 days)—If you have been unable to grow head lettuce, try this variety. It is early and will stand lots of heat. The heads are compact and medium large.

Pkt. 10c; 1/2 Oz. 20c.

WATERMELON Contains vitamins A, B₁, C, G, and minerals.

One Packet will sow 10 hills; 1 ounce 30 hills.

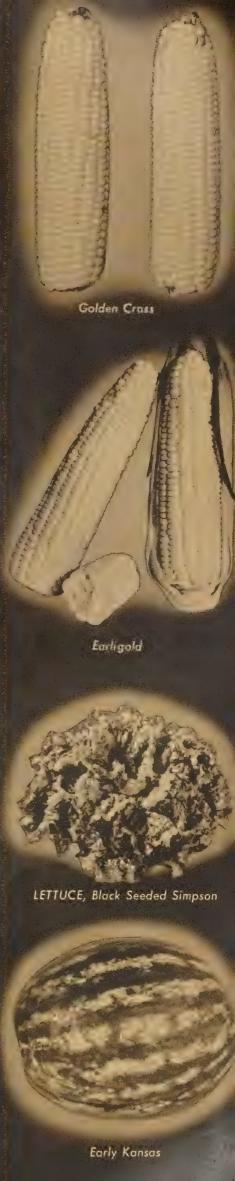

*477 Imp. Kleckley Sweet No. 6 (87 days)-Many consider this the best watermelon. Weighs about 35 pounds, white seeds. Has bright red flesh which is crisp, tender and very sweet. Wilt resistant strain.

*480 Early Kansas Sweet (85 days)—A very large medium early melon, fine for home gardens. Thin green-striped rind, bright red flesh of very fine sweet flavor. Seeds are red-dish-brown. Weighs about 40 pounds. This is one of our finest melons and we recommend it.

475 Northern Sweet (76 days)—A very early, round melon weighing 12 pounds, having a thin rind and deep red crisp flesh. An ideal ice-box

478 Stone Mountain (86 days)—The large, round, solid dark green melons are very popular. Ripens medium early and has a very delicious flavor with lots of heart. Weighs 30 to 40 pounds.

Prices on all Watermelon Pkt. 10c; 1 Oz. 15c; 1/4 Lb. 45c.

MUSKMELON (Cantaloupe)

Contains vitamins A, B, C, G, and minerals.

One Packet will sow 15 hills: 1 Ounce 60 hills.

Hales Best (87 days)-Thick, tender flesh is deep salmon and richly flavored. Oval fruits weigh 4 pounds.

Honey Rock (85 days)—One of the finest for our mid-west home gardens. The fruits weigh about 3 pounds, and the flavor is ideal. Thick orange flesh.

Hearts of Gold (88 days)-The salmon-orange flesh is very thick and good right out of the rind. The fruits are tender, juicy and very sweet. This melon weighs about 4 pounds. It is the most popular muskmelon for general use.
474 Rocky Ford Netted Gem (95

days)-A fine home and market garden melon, weighing about 2½ pounds. Uniform size, nearly round, thick green flesh

with a spicy flavor.

Prices on all Muskmelon Pkt. 10c; 1 Oz. 25c; 1/4 Lb. 75c.

ONIONS

Contain B1, C, G, Calcium, Prosphorus, Iron.

One Packet will sow 10 hills; 1 ounce 30 hills.

483 Southport White Globe (115 days) -The best and most popular white onion. The bulbs are medium large, crisp, mild and have snowy white flesh. A good keeper and a heavy vielder.

Pkt. 10c; ½ Oz. 45c; 1 Oz. 80c Yellow Globe Danvers (111 days) -White flesh, crisp and very fine quality. Firm and solid, this is the best keeping yellow onion. Very productive.

Pkt. 10c; ½ Oz. 45c; 1 Oz. 80c.

One Packet will sow 12 to 15 feet; 1 Ounce 200 feet.

Giant Yellow Sweet Spanish (112 days)—The most popular yellow onion. Very large with mild crisp white flesh.

Pkt. 10c; 1/2 Oz. 45c; 1 Oz. 80c.

Large Red Weathersfield (110 days)-The favorite red onion. Flat, solid medium large bulbs that keep well.

Pkt. 10c; 1/2 Oz. 40c; 1 Oz. 75c.

PEPPERS Contain A, C, Bz, and G; also Calcium and Iron.

500 Long Red Cayenne (70 days)—A favorite hot sort used chiefly for pickling, favorite hot sort canning and drying.

Pkt. 10c; ½ Oz. 30c.

497 **Ruby King** (68 days)—A popular variety for home gardens. Bears dark green fruits, about $4\frac{1}{2}$ to 6 inches long, which turn a ruby red color when ripe. Fruits are about 3 inches thick. One of the best types for pickles

Pkt. 10c; 1/2 Oz. 20c.

PARSLEY Contains and Iron. Contains Vitamin A

Moss Curled (72 days)—The most desirable for garnishing and decorative purposes. Dark green, nnery cut can leaves. Very fast growing. Cut it and it pames up again. Pkt. 10c; 1 Oz. 23c.

PARSNIPS

One Packet will sow about 40 feet; 1 Oz. 200 feet.

488 Hollow Crown (125 days)—The most popular variety. Smooth, white skin with rich, tender, sweet flesh. Long, tapering roots about 12 inches long. They can be left in the ground over winter. Dig them in early spring before growth starts. Pkt. 10c; 1 Oz. 20c.

PEANUTS

Peanuts, Jumbo-The large standard roasting peanut. Stands heat and drought.

Large Pkt. 10c; ½ Lb. 25c; 1 Lb. 45c. 489A Peanuts, Early Spanish—The pods are smaller than the Jumbo but they will mature as far north as Minnesota.

Large Pkt. 10c; ½ Lb. 25c; 1 Lb. 45c.

Sunnybrook Pimiento (72 days) -Fine for home gardens, excellent flavor. Fruits are $2\frac{1}{2}$ to $\overline{3}$ inches long and 3 inches They are tomato-shaped, in diameter. smooth with thick, mild flesh. Pkt. 10c; $\frac{1}{2}$ Oz. 30c.

496 California Wonder (70 days)-A good stuffing pepper-large size, almost square shape, very thick walls, sweet, tender and good flavor. Smooth glossy green, becoming red when ripe. Pkt. 10c; ½ Oz. 25c.

POP CORN

White Hull-less-Most popular white pop corn. Small, short ears. Pops snow-white, absolutely without hulls, very

Pkt. 10c; 1/2 Lb. 25c; 1 Lb. 45c.

South American Jumbo—This is the yellow pop corn that pops to such enormous size, creamy yellow color. Good yielder, usually 2 to 3 ears on a stalk, the ears 6 to 7 inches long.

Pkt. 10c; 1/2 Lb. 20c; 1 Lb. 35c.

One Pkt. will sow 8 hills; 1 Ounce 24

502 Connecticut Field (120 days)-Heaviest producer. Big, yellow pumpkins that weigh 15 to 25 pounds. Thick, sweet, fine-grained flesh.

Pkt. 10c; 1 Oz. 15c; 1/4 Lb. 35c; 1 Lb. \$1.00.

Small Sugar Pie (115 days)-Weigh 4 pounds. What delicious pies you get from its rich golden-orange flesh, thick, sweet, finest flavor.

Pkt. 10c; 1 Oz. 15c; 1/4 Lb. 42c; 1 Lb. \$1.25.

Contain vitamins A, B, C, G, P.P., calcium, Phosphorus, Iron

One Pkt. will sow 15 feet; 1 Lb., 100 feet.

All of these Peas grow only around 18 inches tall and do not have to be supported. When you order Peas be sure and include 10c for a packet of Nitragin to inoculate the Pea and Bean seed. 1 Pkt. is enough for 3 to 4 pounds of seed.

POSTPAID PRICES ON ALL PEAS

Large Packet 10c | 1 lb. for 36c

American Wonder (60 days)-A popular early pea. A good bearer of tender, sweet flavored peas. Grow only 12 to 15 inches tall.

*490 New Alaska (54 days)—This is the kind to plant for those first Peas from your garden. This is an improved strain with larger pods, better flavor and very productive. Smooth seeded, it can be planted very early.

*491 Fillbasket (60 days)—One of the earliest large podded semi-wrinkled peas. Sturdy vines bear an abundance of dark green pods, filled with good quality peas.

*495 Little Marvel (62 days)—Our most popular wrinkled variety and the most satisfactory kind in the average home garden. It is very hardy and can be planted almost as early as New Alaska. Very productive, the pods are filled from end to end with the delicious, tender peas.

Laxton's Progress (62 days)—The earliest and heaviest yielding of the large podded peas. The pods are very large, with big, plump peas of the finest flavor. Very popular.

Inter-State's Pea Special

We have selected 3 varieties which will mature in succession and furnish a continuous supply over a long'

New Alaska—Earliest of all peas. Fillbasket-Midseason, bearing large, wrinkled, tender peas.

Little Marvel-The best and most popular peas. Very productive.

909 Lg. Pkt. of ea. Postpaid 25c 910 ½ Lb. of ea. Postpaid55c 911 1 Lb. of ea. Postpaid......95c

SPINACH

One Packet will sow 35 feet, 1 ounce will sow 100 feet.

Mustard Spinach, Tendergreen (25 days)—This green combines the flavors of mustard and spinach. Very prolific, it produces 6 or 7 crops a year.

Pkt. 10c; 1 Oz. 20c.

Nobel's Giant Thick Leaf (43 days)—Has large dark green crimpled leaves, and one of the heaviest yielders.

Does not go to seed early.

Pkt. 10c; 1 Oz. 16c; 1/4 Lb. 50c.

512 Savoy Bloomsdale (40 days)— Large, curled, deep green leaves. Plant real early and enjoy early greens.

Pkt. 10c; 1 Oz. 20c; 1/4 Lb. 55c.

RADISHES

Contain Vitamin C and minerals

One Packet will sow 30 feet; 1 Ounce, 100

Sow every 2 weeks for a continuous supply of fresh radishes all season.

*504 Early Scarlet Globe (22 days)—By far the most popular real early radish. Bright scarlet, olive-shaped, crisp and tender.

Pkt. 10c; 1 Oz. 15c.

505 French Breakfast (24 days)—Early oblong shaped radish, scarlet with white tip.

Pkt. 10c; 1 Oz. 15c.

*507 New Crimson Giant (28 days)—A rather new red radish that is fast becoming the most popular of all radishes. It is a large round radish being about 11/2 inches in diameter when fully grown. Deep crimson in color with white flesh that is very crisp and tender, and stays that way longer than any other red radish we know. Do not sow seed too thickly:

Pkt. 10c; 1 Oz. 15c.

*508 White Icicle (27 days)—Everybody likes this long, snow-white radish. It is very mild, crisp and tender and stays that way for a long time.

Pkt. 10c; 1 Oz. 15c.

SQUASH Contains vitamins A, B, and G, also Calcium and Iron.

528 Acorn, Table Queen (58 days)—Weighs about 1 pound, just the right size to cut in half for serving. Dark green hard shell, rich orangeyellow flesh, fine flavor. Large producer.

Pkt. 10c; 1 Oz. 20c.

527 Chicago Warted Hubbard (115 days)— Dark green, warty, and deep orange-yellow flesh. Weighs about 16 pounds. The best winter squash. Pkt. 10c; 1 Oz. 23c.

530 Early Straightneck (55 days)—Heavily warted, thick necked, straight lemon-yellow fruit with light yellow flesh. Weighs about 3 pounds. Pkt. 10c; 1 Oz. 20c.

531 Striped Cushaw (115 days)—Fruits are crooknecked, very large and irregularly green striped. Thick, sweet, light yellow flesh. Very prolific. Pkt. 10c; 1 Oz. 20c.

TOMATOES Contain vitamins A, B1, C, G,

514 Earliana (66 days)—A widely planted extra early variety. Medium size, bright red fruits. Pkt. 10c; ½ Oz. 30c; 1 Oz. 50c.

*519 Marglobe (77 days)—A heavy yielder of large, smooth, deep red, globe-shaped tomato with thick, firm meat. Fine for canning and slicing. Resistant to wilt and nail-head rust. Pkt. 10c; ½ Oz. 20c; 1 Oz. 30c.

518 New Stone (86 days)—A favorite for home gardens and canning. Productive. Fruits are large, smooth, solid, bright scarlet. Pkt. 10c; 1/2 Oz. 20c; 1 Oz. 35c.

516 Giant Ponderosa (88 days)—Our selected strain produces fruit of immense size and smoother than most others. Fruits have few seeds, are very solid and have a fine flavor. Pkt. 10c; ½ Oz. 35c; 1 Oz. 55c.

522 Red Head (76 days)—A round, smooth, medium early variety that does unusually well. Firm, bright red flesh, fine for slicing and canning.

Pkt. 10c; ½ Oz. 25c; 1 Oz. 40c.

*523 Rutger's (77 days)—Most widely planted of all tomatoes. Bright scarlet, meaty fruits are fine for slicing and canning. Ripens from the inside out. Fine quality. Very heavy producer. Resistant to wilt and nail-head rust.

Pkt. 10c; 1/2 Oz. 20c; 1 Oz. 35c.

524 Jubilee (72 days)—A new and different tomato that should have a place in your garden. The large orange-yellow skinned fruits are a novel in appearance It has small seed cavities and a non-acid wonderful flavor.

Pkt. 10c; 1/2 Oz. 75c.

Contain vitamins C and Cal-TURNIPS cium. Turnip top greens contain A, B1, C, G, P.P., Calcium, Phosphorus, Iron.

One Packet sows 40 feet, 1 Oz. 200 ft. To get largest yield, broadcast turnip seed thinly instead of planting in rows.

533 Purple Top Strap Leaf—Flat, medium sized roots, purple topped, fine grained and Pkt. 10c; 1 Oz. 16c.

*534 Purple Top White Globe-Most widely planted turnip. Globe-shaped and white, tender flesh. Very mild in flavor.

Pkt. 10c; 1 Oz. 16c.

USEFUL VEGETABLES TO ROUND OUT YOUR GARDEN

563 Brussel Sprouts, Long Island-Thickly set stems with solid cabbage-like balls. Contains A, B1, C, Calcium, Phosphorus and Iron. Pkt. 10c.

457 Dill—The common dill pickle herb. Pkt. 10c.

458 Egg Plant, Black Beauty-The thick smooth rich purple fruits are very early. Pkt. 10c. 459 Endive, Green Curled—Delicious for autumn and winter salads. Frost improves its quality and flavor. Contains A, C, G, Calcium and Iron.

Pkt. 10c; 1 Oz. 22c.

457A Gherkin, West Indies-Small oval shaped prickly cucumber, fine for small Pkt. 10c; 1/2 Oz. 20c. pickles.

461 Kohlrabi, Early White-Best for home use, has mild, crisp and tender flesh, dwarf.

468 Mustard, Giant Southern Curled -Long and wide leaves with curled edges for greens. Contains A, B₁, G, PP, Calcium, Phosphorus and Iron.

Pkt. 10c; 1 Oz. 18c.

525 Salsify, Mammoth Sandwich Island—A delicious, nutritious yegetable with a decided oyster flavor. Keeps in ground over winter but must be dug before Pkt. 10c. spring growth starts.

*423 Swiss Chard, Lucullus—The most commonly grown chard. It is of the beet family but is grown for its leaves only, which make very fine greens.

Pkt. 10c: 1 Oz. 20c.

Inter-State's Frost Resistant Field-Grown Vegetable Plants

These plants are grown for us by one of the foremost vegetable plant growers. They are shipped direct to you from our grower, thus giving quickest delivery time. The plants may be bleached to a yellowish-green in shipping but this does not hurt them at

all and they will get their natural green color very soon after you plant them. Plants are guaranteed to arrive in perfect condition for transplanting or we will replace them or refund your money. Be sure to give shipping date. This is very important.

Certified Tomato Plants

Our field-grown plants are grown from the best certified seed and thoroughly sprayed to insure disease-free plants. These will produce rich, red, ripe tomatoes three weeks before hot house plants. Plants are ready April, May and June. Give shipping date. Order in multiples of 50 plants of a variety.

Earliana (66 days)—Red, medium size. Marglobe Certified (77 days)—Deep

scarlet, large and solid.

Rutger's Certified (86 days)—Bright red, ripens from inside out.

BUG-DUST-O-CIDE

It's easier to protect your plants from a wide variety of both sucking and chewing insects with Bug-Dust-O-Cide. It controls aphids, bean beetles, flea beetles, leaf hopper, cabbage worms, cucumber beetles, potato beetles and certain other insects. Checks fungus diseases, mildew and black spot. As the supply is limited, the government requests that you use it only on vegetables and fruit plants, anything that produces food.

PRICES

Postpaid in Iowa, Kansas, Missouri and Nebraska. All other states add 3c per pound for postage.

6-IN-1 APPLE TREE Six Different Apples On One Tree

F20 This is a "grown-to-order" Apple Tree, especially for those with limited room. You can pick apples off this one tree from early summer until late fall. It has six different kinds, our best, most popular varieties. Yellow Transparent and Yellow Delicious start bearing very young, followed by Wealthy and soon all are bearing, all on the same tree. With its rich green foliage, beautiful flowers and fruit, this tree is attractive enough to plant in your front yard. These trees are 2 years old, 4 to 6 feet tall.

Each \$3.60, 2 for \$6.75 Not Postpaid
